INDEPENDENT AUDITOR'S REPORT

The Board of Directors of Erie County Fiscal Stability Authority:
Buffalo, New York

Report on the Financial Statements

We have audited the accompanying basic financial statements of the Erie County Fiscal Stability Authority (the Authority), a component unit of Erie County, New York, as of and for the year ended December 31, 2013, and the related notes to the financial statements, which collectively comprise the Authority's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Authority's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances but not for the purpose of expressing an opinion on the effectiveness of the Authority's internal control. Accordingly we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities of the Authority, as of December 31, 2013, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management discussion and analysis on pages 3-10 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated March 31, 2014 on our consideration of the Authority's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Authority's internal control over financial reporting and compliance.

Management's Discussion and Analysis
Erie County Fiscal Stability Authority
Fiscal Year ended December 31, 2013

This section of Erie County Fiscal Stability Authority's (the Authority) annual financial report presents its discussion and analysis of the Authority's financial performance during the fiscal year ended December 31, 2013. Please read it in conjunction with the Authority's financial statements, which immediately follow this section.

The Erie County fiscal Stability Authority is a corporate governmental agency and instrumentality of the State of New York constituting a public benefit corporation. Although legally separate and independent of Erie County, the Authority is incorporated into the financial statements of the County as a blended component unit. (See notes to financial statements)

Financial Highlights

The Erie County Fiscal Stability Authority's 2013 fiscal year was again highlighted by spending 91% of its allocated budget. With a 2013 operating budget of \$ 505,087 - and actual expenditures of \$ 447,472 - the Authority achieved a savings of \$ 58,019 or 13%. For the eighth consecutive year, the Authority has expended less than its annual operating budget by at least 9% or more and has very effectively held the line on operational spending keeping it to a bare minimum.

In 2013 the Authority issued short term bonds in the amount of \$109.4 million on behalf of Erie County for the County's short term capital needs further saving the County and taxpayers \$208,000 in financing costs.

Overview of the Financial Statements

This annual report consists of three parts: management's discussion and analysis (this section), the basic financial statements, and required supplementary information. The basic financial statements include two kinds of statements that present different views of the Authority:

- Statement of Net Position (*Figure A-1*)
- Changes in Net Position from Operating Results (*Figure A-2*)

The financial statements also include notes that explain some of the information in the statements and provide more detailed data. Figure A-1 shows how the various parts of this annual report are arranged and related to one another.

Government-wide Statements

The government-wide statements report information about the Authority as a whole using accounting methods similar to those used by private-sector companies. The government-wide financial statements present the financial picture of the Authority from the economic resources measurement focus using the accrual basis of accounting. These statements include all assets of the Authority as well as all liabilities (including long-term debt).

The two government-wide statements report the Authority's net position and how they have changed. Net position - the difference between the Authority's assets and liabilities - is one way to measure the Authority's financial health or financial position.

- Over time, increases or decreases in the Authority's net position are an indicator of whether its financial position is improving or deteriorating, respectively.
- To assess the Authority's overall health, you need to consider additional non-financial factors such as changes in the bond interest rates.

Fund Financial Statements

The fund financial statements provide more detailed information about the Authority's funds. These statements consist of the balance sheet and the statement of revenues, expenditures and changes in fund balances.

In addition to these two types of statements, the financial statements include a reconciliation between the government-wide and fund financial statements. Accompanying notes to the financial statements are an integral part of the financial statements.

Financial Analysis of the Authority as a Whole

Figure A-1 summarizes the Authority's net position as of December 31, 2013 and 2012.

Unrestricted	4	976	-99.6%
Total net position	\$ 6,781	\$ 13,680	-50.4%

The Authority's overall total net position declined 50% in 2013 to \$6,781 from \$13,680 in 2012 mainly due to the restatement of net position resulting from the implementation of GASB 65 and a current year adjustment to the amortization estimate related to the bond discounts.

In 2013, the Authority issued \$92.6 million in serial bonds with proceeds used to purchase \$92.6 million in Erie County mirror bonds. The Authority's net increase in "total assets" is primarily due to the purchase of these "mirror" bonds from Erie County and increases in bond set asides.

Cash and cash equivalents declined 84% due to a \$741,068 return in excess operating funds from the ECFSA operating account to Erie County.

Since the Authority has an arrangement with Erie County to issue bonds on its behalf and then use the funds to purchase mirror bonds "notes" from the County, the Authority accrues interest receivable from the County on those mirror bonds and reduces the receivable when payment is received from Erie County and made to the outside bondholders. The Authority has an ongoing requirement to set aside Erie County funds through the interception of Sales tax revenues from New York State to make the periodic interest and principal payments on its outstanding bonds issued. The Authority's "total liabilities" correspondingly increased as a result of the issuance of the 2013 bonds.

Accrued interest payable, bond anticipation notes payable, unamortized bond premiums, bonds payable, debt set-asides, due to Erie County, and residual accrued interest due to Erie County all relate as liability components to the Authority's 2013 and 2012 issuance of bonds.

The increase in sales tax revenues of 2.3% is due to the overall improving economic condition of Erie County residents as well as continuing strong cross border spending from Canadian citizens. Interest income, interest expense and amortization increases of 4.4% and 46.4%, respectively, is a result of the Authority's 2013 and 2012 long term and short term bond issuances on the County's behalf. General and administrative expenses decreased by 4.9% due to a decrease in pension costs and overall G & A spending.

Financial Analysis of the Authority's Funds

General & Administrative Expenses

For the year ended December 31, 2013, the Authority's general and administrative expenses totaled \$447,000 versus \$470,000 in 2012. General and administrative expenses were 4.9% lower in 2013 compared to 2012 primarily due to decreases in pension expense, staff hours reduction, reduced meeting expense and a decline in miscellaneous expenses.

Wages and employee related expenses include salaries, payroll taxes, health insurance (net of employee contributions) and New York State and Local Retirement System (NYSLRS) contributions. As of December 31, 2013 there were four Authority employees. Staff hours reduction and a decrease in pension expense were the main drivers for the 4.7% decrease in wage and employee-related expenses.

Factors Bearing on the Authority's Future

The Authority was created on July 12, 2005 by Chapter 182 of the Laws of 2005, and amended by Chapter 183 of the Laws of 2005, to monitor and oversee the finances of the County. The Authority is enacted to operate through December 31, 2039.

Revenues & Sales Tax Distribution

Revenues of the Authority includes the County's share of sales tax revenue and interest income earned on cash held by the Authority, granted to the County. The Authority's enabling legislation grants the Authority a first lien and perfected security interest in net collections from sales and compensating use tax authorized by the State and levied by the County.

The current sales and compensation use tax rate in the County is 4.75% consisting of a 3.00% base rate and a 1.75% additional rate, which is subject to periodic renewals. The Authority receives all sales tax revenue imposed by the County except for the component that is allocable to the towns, cities, school districts and villages within the County. Sales tax revenue is dependent upon various factors including economic conditions in the County, which has experienced numerous cycles of growth and recession.

Sales tax revenue of the Authority for the year ended December 31, 2013 amounted to \$407,581,214. The Authority received \$ 24,793 in interest on sales tax transferred to the Authority by the New York State Office of the State Comptroller. In addition the Authority realized \$ 317 in interest income on cash held in interest-bearing bank accounts and interest income on notes receivable from the County amounting to \$ 19,423,240.

The Authority retained \$ 456,000 of sales tax revenue in 2013 to offset the reduction in interest on sales tax revenue due to historically low interest rates.

Revenue of the Authority must be applied first to pay debt service on the Authority bonds, then for Authority operating expenses and finally subject to agreements with the County, the balance is transferred to the County. The Authority transferred \$ 359,301,229 in net sales tax revenues to the County in the 2013 fiscal year.

Reconciliation of the Balance Sheet of Governmental Funds to the Statement of Net Position

December 31, 2013

Total fund balances - governmental funds balance sheet	\$	19,990
Amounts reported in the statement of net position are different because:		
Interest revenue is recognized when earned in the government-wide statements. In the governmental funds balance sheet interest is accrued only if it will be received within sixty days of year end. This is the portion of interest receivable related to long term debt which will not be received within sixty days of year end.		5,343,283
Purchase of notes relating to long term bonds issued to the Authority by Erie County are reported as assets in the statement of net position but not reported as assets in the governmental funds balance sheet.		467,788,221
Unamortized bond premiums for long term debt is reported as a liability in the statement of net position and not reported in the governmental funds balance sheet.		(37,805,612)
Accrued interest on long-term debt is reported as a liability in the statement of net position and not reported in the governmental funds balance sheet.		(5,894,292)
Certain liabilities, including bonds payable are not due and payable currently and therefore are not reported as liabilities in the governmental funds balance sheet but for accrual basis purposes are reported in the statement of net position. These liabilities consist of long term debt associated with the the 2013A, 2013B, 2013C, 2011A, 2011B, 2011C, 2010A, 2010B, and 2010C series bond issuances.		<u>(422,670,000)</u>

NOTES TO FINANCIAL STATEMENTS

NOTE 1. ORGANIZATION

Erie County Fiscal Stability Authority (the Authority) is a corporate governmental agency and instrumentality of the State of New York (the State) constituting a public benefit corporation. The Authority is incorporated into the financial statements of Erie County, New York (the County) as a blended component unit. The Authority was created on July 12, 2005, to monitor and oversee the finances of the County. Agencies and departments to be covered by the Authority's activities include all Erie County Departments, Erie Community College, the Buffalo & Erie County Public Libraries and Erie County Sewer Districts.

The business of the Authority is carried out by the Authority's Board of Directors at public meetings, which are required to be held not less than quarterly during a control period and not less than annually during an advisory period. Board meetings are typically held monthly. No action may be taken by the Authority without a favorable vote of at least four directors. The Authority is to be governed by seven directors, each appointed by the Governor including one each appointed on the written recommendation of the Temporary President of the State Senate, the Speaker of the State Assembly and the State Comptroller. The Governor designates a chair and vice chair from among the directors. One director appointed by the Governor and the directors appointed on the recommendation of the Temporary President of the State Senate, the Speaker of the State Assembly and the State Comptroller must be residents of Erie County. All directors of the Authority serve without salary.

In its oversight capacity, the Authority is vested with control and advisory powers to review County financial plans submitted to it and make recommendations, or if necessary, adverse findings thereon. Annually, the Authority is required to review and approve a budget and four-year financial plan submitted by the County, which details expenditures, revenues and gap closing measures. The Authority may impose a control period upon, make one of several statutory findings concerning the County's financial position and, if necessary, develop financial plans on behalf of the County, if the County is unwilling or unable to take the required steps toward fiscal stability. The Authority is also empowered to make appropriated State aid available as it determines necessary in the form of efficiency grants.

On November 3, 2006, the Authority imposed a control period on the County in accordance with Section 3595(1)(e) of New York Public Authorities Law through resolution 06-49. The resolution empowered the Authority to operate with its maximum authorized compliment of control and oversight powers over County finances. On that date, the Board also imposed a hiring freeze and a contract review process.

On June 2, 2010 the Authority elected to revert from control status to advisory status.

The Authority is required to comment on proposed borrowings by the County and it may issue bonds or other obligations to achieve budgetary savings through debt restructuring, deficit financing or by financing short-term cash flow or capital needs. The aggregate principal amount of long-term general obligation or revenue borrowing by the Authority on behalf of the County shall not exceed \$700 million at any one time excluding any cost of issuance, debt reserve fund or future refunding of bonds net of unearned bond accretion. In addition, the aggregate principal amount of short-term cash flow borrowing by the Authority on behalf of the County shall not exceed \$250 million at any one time.

NOTES TO FINANCIAL STATEMENTS

NOTE 1. ORGANIZATION (Continued)

Revenue of the Authority consists of sales tax revenue, defined as net collections from sales and compensating use taxes, penalties and interest authorized by the State and imposed by the County on the sale and use of tangible personal property and services in the County, and investment earnings on funds deposited in Authority bank accounts. Sales tax revenue collected by the New York State Office of the State Comptroller (the State Comptroller) for transfer to the Authority are not subject to appropriation by the State or County. Revenues of the Authority that are not required to pay operating expenses and other costs of the Authority are payable to the County as frequently as practicable.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. BASIS OF PRESENTATION

The Authority has prepared its financial statements in accordance with accounting principles generally accepted in the United States of America. The Authority has prepared government-wide financial statements titled the statement of net position and statement of activities as well as the required supplementary information titled management's discussion and analysis which precedes the financial statements. The Authority also prepares the fund financial statements, which are the general and debt service fund balance sheet, and statement of revenues, expenditures and changes in fund balances.

B. MEASUREMENT FOCUS, BASIS OF ACCOUNTING, AND FINANCIAL STATEMENT PRESENTATION

The financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of the related cash flows. New assets, revenues, expenses, gains, and losses are classified based on the existence or absence of donor-imposed restrictions. Amounts for each of the two classes of net position – restricted and unrestricted – are displayed in the statement of net position and the amounts of change in each of those classes of net position are displayed in the statement of activities.

The Authority follows the modified accrual basis of accounting on its governmental funds, which focuses on changes in available resources, in preparation of the fund financial statements. Under the modified accrual basis of accounting, revenues and related receivables are recorded in the accounting period that they become both measurable and available. Available means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period (sixty days or less). Expenditures and related liabilities are recognized in the accounting period the liability is due and payable.

**ERIE COUNTY FISCAL STABILITY AUTHORITY
(A COMPONENT UNIT OF ERIE COUNTY)**

NOTES TO FINANCIAL STATEMENTS

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

The Authority reports the following funds as governmental funds:

General fund - the Authority's primary operating fund and accounts for substantially all activity of the Authority.

Debt Service fund - this fund accounts for certain sales tax revenue that is set-aside to service the debt service of the Authority's serial bonds.

Revenue Recognition: No revenues are generated from operating activities of the Authority, therefore, all revenues are defined by the Authority as general revenues. Revenues are received in the General Fund. Overhead expenses of the Authority that arise in the course of providing the Authority's oversight services, such as payroll and office expenses, are considered operating expenses and are accounted for in the General Fund.

Postemployment Benefits Other Than Pensions: The Authority has no obligation requiring financial statement reporting under GASB Statement No. 43 or GASB Statement No. 45, as there are no employees of the Authority who are currently entitled to postemployment benefits other than pensions.

Cash and Cash Equivalents: Cash and cash equivalents include certificates of deposit which mature within 90 days of issuance.

Bond Issuance Costs: Bond issuance costs are expensed and recognized in the period issued in the governmental funds. The Authority adopted GASB Statement No. 65 in 2013 which requires bond issuance costs to also be expensed and recognized in the period issued in the government-wide statements.

Bond Premiums: In the government-wide statements, proceeds from the issuance of bonds received in excess of face value (premiums) are deferred and added to the bonded liability. These amounts are subsequently amortized on a straight-line basis as an offset of interest expense over the life of the bond. In the fund statements, these amounts are recognized currently as other financing sources.

Net Position: GASB requires the classification of net assets into three components, of which the Authority uses two, as defined below:

Restricted Net Position - consists of net positions with constraints placed on their use either by (1) external groups such as creditors, grantors, contributors, or laws or regulations of other governments; or (2) law through constitutional provisions or enabling legislation.

Unrestricted Net Position - all other net positions that do not meet the definition of "restricted".

Use of Estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

NOTES TO FINANCIAL STATEMENTS

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

New Accounting Pronouncements: During the fiscal year ended December 31, 2013, the Authority adopted the provisions of Governmental Accounting Standards Board (GASB) Statement No. 65, *Items previously Reported as Assets and Liabilities*. GASB No. 65 established accounting and financial reporting standards that reclassify, as deferred outflows and inflows of resources, certain items that were previously reported as assets and liabilities.

Additionally, during the year ended December 31, 2013, the Authority completed the process of evaluating the impact that will result from adopting GASB Statements No. 61, *The Financial Reporting Entity: Omnibus—an amendment of GASB Statements No. 14 and No. 34*, and Statement No. 66, *Technical Corrections—2012—an amendment of GASB Statements No. 10 and 62*, effective for the year ending December 31, 2013. GASB Statements No. 61 and 66 have been adopted, as applicable for the year ended December 31, 2013 and did not have a material impact on the Authority's financial position or results from operations.

The GASB has issued the following new statements:

- Statement No. 67, *Financial Reporting for Pension Plans—an amendment of GASB Statement No. 25*, which will be effective for the year ending December 31, 2014; and
- Statement No. 68, *Accounting and Financial Reporting for Pensions—an amendment of GASB Statement No. 27*, which will be effective for the year ending December 31, 2015.
- Statement No. 69, *Government Combinations and Disposals of Government Operations*, which will be effective for the year ending December 31, 2014;
- Statement No. 70, *Accounting and Financial Reporting for Nonexchange Financial Guarantees*, effective for the year ending December 31, 2014; and
- Statement No. 71, *Pension Transition for Contributions Made Subsequent to the Measurement Date*, which should be applied simultaneously with the provisions of Statement No. 68.

The Authority is currently reviewing these statements and plans on adoption of these policies as deemed appropriate.

NOTE 3. DEPOSITS AND INVESTMENTS

The Authority's investment policies are governed by State statutes as required by New York Public Authority's Law. In addition, the Authority has adopted their own written investment policy. The Authority's monies must be deposited in FDIC insured commercial banks or trust companies located within the State. Permissible investments include demand accounts and certificates of deposit, obligations of the U.S. Treasury and U.S. Agencies, repurchase agreements and obligations of New York State or its localities.

**ERIE COUNTY FISCAL STABILITY AUTHORITY
(A COMPONENT UNIT OF ERIE COUNTY)**

NOTES TO FINANCIAL STATEMENTS

NOTE 3. DEPOSITS AND INVESTMENTS (Continued)

Collateral is required for demand and time deposits and certificates of deposit not covered by Federal Deposit Insurance. Obligations that may be pledged as collateral are obligations of the United States and its agencies and obligations of the State and municipalities and school districts.

Investments consist of accounts held at M&T Bank for set-aside sales tax revenue for the payment of the Authority's debt service requirements. These set-aside funds are held on behalf of Erie County for its payment of mirror serial bonds payable to the Authority in a segregated trust account and not commingled with the assets of the bank. Additionally, they are invested in Treasury Securities which provides for full principal protection in accordance with the Eligible Investments of the Indenture. The balance in these accounts is \$25,158,863 at December 31, 2013.

Investment and Deposit Policy

The Authority implemented Governmental Accounting Standards Board Statement No. 40, *Deposit and Investment Risk Disclosures*.

The Authority currently follows an investment and deposit policy as directed by State statutes, the overall objective of which is to adequately safeguard the principal amount of funds invested or deposited; conformance with federal, state and other legal requirements; and provide sufficient liquidity of invested funds in order to meet obligations as they become due. Oversight of investment activity is the responsibility of the Board of Directors.

Interest Rate Risk

Interest rate risk is the risk that the fair value of investments will be affected by changing interest rates. The Authority's investment policy does not limit investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

Credit Risk

The Authority's policy is to minimize the risk of loss due to failure of an issuer or other counterparty to an investment to fulfill its obligations. The Authority's investment and deposit policy authorizes the reporting entity to purchase the following types of investments:

- Interest bearing demand accounts.
- Certificates of deposit.
- Obligations of the United States Treasury and United States agencies.
- Obligations of New York State and its localities.

Custodial Credit Risk

Custodial credit risk is the risk that in the event of a failure of a depository financial institution, the reporting entity may not recover its deposits. In accordance with the Authority's investment and deposit policy, all deposits of the Authority including interest bearing demand accounts and certificates of deposit, in excess of the amount insured under the provisions of the Federal Deposit Insurance Act (FDIC) shall be secured by a pledge of securities with an aggregate value equal to 102% of the aggregate amount of deposits. The Authority restricts the securities to the following eligible items:

- Obligations issued, fully insured or guaranteed as to the payment of principal and interest, by the United States Treasury and United States agencies.
- Obligations issued or fully insured or guaranteed by the New York State and its localities.

NOTES TO FINANCIAL STATEMENTS

NOTE 4. TRANSACTIONS WITH AND ON BEHALF OF ERIE COUNTY

The Act and other legal documents of the Authority established various financial relationships between the Authority and the County. The resulting financial transactions between the Authority and the County include:

- a. The receipt of sales tax revenues in 2013 of \$407,581,214 and the subsequent disbursements of \$359,301,229 were remitted to the County.
- b. The Authority retained \$456,000 of sales tax revenue in 2013 to offset the reduction in interest on sales tax revenue due to historically low interest rates.
- c. The receipt and accrual of New York State Efficiency Grants in 2013 of \$2,385,705 and reimbursement of \$2,385,705 to the County.
- d. Notes, serial bonds and accrued interest receivable in the amount of \$582,571,504 were owed to the Authority by the County at December 31, 2013.

NOTE 5. SALES TAX RECEIVABLE /DUE TO ERIE COUNTY

Sales tax receivable amounted to \$48,620,332 at December 31, 2013. These amounts are receivable from the State Comptroller and are also due to the County. These amounts were received by the Authority and transferred to the County subsequent to year-end.

NOTE 6. BOND ANTICIPATION NOTES

In 2013, the Authority issued a bond anticipation note Series 2013A totaling \$109,440,000, with interest at 1.00%, due July 31, 2014.

NOTE 7. REVENUE ANTICIPATION NOTES

In 2013, Erie County issued a revenue anticipation note Series 2013A totaling \$109,440,000, with interest at 1.00%, due July 31, 2014.

NOTE 10. PENSION PLAN

PLAN DESCRIPTION

The Authority participates in the New York State and Local Employees' Retirement System (ERS) and the Public Employees' Group Life Insurance Plan (Systems). These are cost-sharing multiple-employer retirement systems. The Systems provide retirement benefits as well as death and disability benefits. Obligations of employers and employees to contribute and benefits to employees are governed by the New York State Retirement and Social Security Law (NYSRSSL). As set forth in the NYSRSSL, the Comptroller of the State of New York (Comptroller) serves as sole trustee and administrative head of the Systems.

The Comptroller shall adopt and may amend rules and regulations for the administration and transaction of the business of the Systems and for the custody and control of their funds. The Systems issue a publicly available financial report that includes financial statements and required supplementary information. That report may be obtained by writing to the New York State and Local Retirement Systems, 110 State Street, Albany, NY 12244.

FUNDING POLICY

The Systems are noncontributory except for employees who joined the Systems after July 27, 1976 who contribute 3.0% to 3.5% of their salary. With the exception of ERS tier V and VI employees, employees in the systems more than ten years are no longer required to contribute. In addition, employees' contribution rates under ERS tier VI vary based on a sliding salary scale. For the New York State and Local Employees' Retirement System, the Comptroller shall certify annually the rates expressed as proportions of payroll of members, which shall be used in computing the contributions required to be made by employers to the pension accumulated fund.

The required contributions for the current year and two preceding years were:

	<u>ERS</u>
2013	\$ 52,037
2012	63,715
2011	40,184

The Authority's contributions made to the System were equal to 100 percent of the contributions required for each year. The Authority chose to prepay the required contributions by December 15, 2013 and received an overall discount of \$468.

NOTE 11. FUND BALANCES

As of December 31, 2013, fund balances on the fund basis statements are classified as follows:

Non-spendable - amounts that cannot be spent because they are either not in spendable form or legally or contractually required to be maintained intact. As of December 31, 2013, the Authority has no non-spendable fund balances.

Restricted - amounts with constraints placed on the use of resources either externally imposed by creditors, grantors, contributors or laws or regulations of other governments; or imposed by law through constitutional provisions or enabling legislation.

**ERIE COUNTY FISCAL STABILITY AUTHORITY
(A COMPONENT UNIT OF ERIE COUNTY)**

NOTES TO FINANCIAL STATEMENTS

NOTE 11. FUND BALANCES (Continued)

Committed - amounts that can only be used for the specific purposes pursuant to constraints imposed by formal action of the Authority's highest level of decision making authority, i.e., the Board of Directors. As of December 31, 2013, the Authority has no committed fund balances.

Assigned - amounts that are constrained by the Authority's intent to be used for specific purposes, but are neither restricted nor committed. The assigned category typically includes funds encumbered and appropriations of fund balances. As of December 31, 2013, the Authority has no assigned fund balances.

Unassigned - all other spendable amounts that do not meet the definition of the above four classifications and are deemed to be available for general use by the Authority

As of December 31, 2013, fund balances were classified as follows:

	<u>General</u>	<u>Debt Service</u>	<u>Total</u>
<u>Restricted:</u>			
Debt Service	\$ -	\$ 15,771	\$ 15,771
<u>Unassigned:</u>			
General fund	<u>4,219</u>	<u>-</u>	<u>4,219</u>
Total	<u>\$ 4,219</u>	<u>\$ 15,771</u>	<u>\$ 19,990</u>

The Authority has not adopted a formal spending policy, under the provisions of GASB Statement No. 54, stating the Board of Directors will assess the current financial condition of the Authority and then determine the order of application of expenditures to which fund balance classifications will be charged. Under the provisions of GASB Statement No. 54, absent of a formal policy, committed funds will be reduced first, followed by assigned fund, and then unassigned funds when expenditures are incurred for purposes for which amounts in any of those unrestricted fund balance classifications could be used.

NOTE 12. RESTATEMENT OF NET POSITION

The restatement of net position on the government-wide statement of activities occurred as a result of the implementation of GASB Statement No. 65, *Items Previously Reported as Assets and Liabilities*. The Authority has previously amortized \$2,625,272 of bond issuance costs, of which \$352,978 was previously expensed, thereby resulting in a restatement of net position in the amount of \$2,272,294.

INDEPENDENT AUDITOR'S REPORT

To the Board of Directors of Erie County Fiscal Stability Authority
City of Buffalo, New York

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities of the Erie County Fiscal Stability Authority (the Authority), a component unit of Erie County, New York, as of and for the year ended December 31, 2013, and the related notes to the financial statements, which collectively comprise the Authority's basic financial statements, and have issued our report thereon dated March 31, 2014.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Authority's internal control over reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Authority's internal control. Accordingly, we do not express an opinion on the effectiveness of the Authority's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charges with governance.

Our consideration of the internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Authority's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Authority's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Authority's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

INDEPENDENT ACCOUNTANT'S REPORT

To the Board of Directors of the
Erie County Fiscal Stability Authority

We have examined Erie County Fiscal Stability Authority's (the Authority) compliance with the New York State Comptroller's Investment Guidelines for Public Authorities and Section 2925 of the New York State Public Authorities Law (collectively, the "Investment Guidelines") for the year ended December 31, 2013. Management is responsible for the Authority's compliance with those requirements. Our responsibility is to express an opinion on the Authority's compliance based on our examination.

Our examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants and, accordingly, included examining, on a test basis, evidence about the Authority's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our examination provides a reasonable basis for our opinion. Our examination does not provide a legal determination on the Authority's compliance with specified requirements.

In our opinion, the Authority complied, in all material respects, with the aforementioned requirements for the year ended December 31, 2013.

This report is intended solely for the information and use of the Board of Directors, management and others within the Authority and the New York State Authorities Budget Office, and is not intended to be and should not be used by anyone other than these specified parties.
