DEPARTMENT OF FINANCE

MUNICIPAL BUILDING – 255 MAIN STREET – WHITE PLAINS, NEW YORK 10601
TEL: (914) 422-1235 – Fax: (914) 422-1273

THOMAS M. ROACH
MAYOR

MICHAEL A. GENITO
COMMISSIONER
CAROL ENDRES
DEPUTY COMMISSIONER

November 19, 2014

To the Honorable Mayor, Members of the Common Council and Citizens of the City of White Plains, New York:

Section 58 of the City Charter requires that the Commissioner of Finance shall publish an audited annual financial report for the fiscal year ended June 30 no later than the stated meeting of the Common Council in December of the same year. In accordance with that requirement, submitted herewith is the audited Comprehensive Annual Financial Report (CAFR) for the City of White Plains, New York (City) for the fiscal year ended June 30, 2014.

Management assumes full responsibility for the completeness and reliability of the information contained in this report, based upon a comprehensive framework of internal control that it has established for this purpose. Because the cost of internal control should not exceed anticipated benefits, the objective is to provide reasonable, rather than absolute, assurance that the financial statements are free of any material misstatements.

O'Connor Davies, LLP, a firm of licensed certified public accountants, has issued an unmodified opinion on the City's financial statements for the fiscal year ended June 30, 2014. The independent auditors' report is located at the front of the financial section of this report.

Management's discussion and analysis (MD&A) immediately follows the independent auditors' report and provides a narrative introduction, overview and analysis of the basic financial statements. MD&A complements this letter of transmittal and should be read in conjunction with it.

This report has also been prepared and organized to meet the requirements of the Government Finance Officers Association's *Certificate of Achievement for Excellence in Financial Reporting* program. In accordance with those guidelines the report is presented with four major sections: Introductory Section, Financial Section, Statistical Section and Single Audit Section – Federal Programs.

The City is compliant with the provisions of all applicable GASB statements and takes pride in its policy and history of early application of new standards. The City could not at this time early implement Statement No. 68, *Accounting and Financial Reporting for Pensions – an amendment of GASB Statement No. 27*, due to the fact that the State of New York has not yet implemented Statement No. 67, *Financial Reporting for Pension Plans – an amendment of*

GASB Statement No. 25 and has not yet developed the information that the City needs to implement Statement No. 68.

PROFILE OF THE GOVERNMENT

The City is located in the south central portion of Westchester County approximately 22 miles north of New York City. It currently encompasses an area of 10 square miles and serves a population of 57,866.

Founded in 1683, the City became the seat of Westchester County government in 1778 by an act of the State Legislature. In 1866 it was incorporated as a village and in 1916 was incorporated as a city. The City operates under the Mayor-Council form of government with the Mayor serving as the Chief Executive Officer. Policy-making and legislative authority are vested in the Common Council, which includes the Mayor and six Council members, all of whom are elected at large for four year terms. The Mayor, with Common Council approval, appoints the commissioners and directors of the City's departments. The Commissioner of Finance is the Chief Fiscal Officer of the City and is responsible for the supervision and administration of the financial affairs of the City.

The City is empowered to levy a property tax on real properties located within its boundaries. It also functions in both a fiduciary and guarantor relationship with the County of Westchester and the White Plains City School District with respect to the collection and payment of real property taxes levied by such jurisdictions. The County of Westchester and the White Plains City School District are independent of the City municipal government legally, as well as in governance and operations and are therefore excluded from this report.

The City provides a full range of services. General government services include vital statistics (birth and death certificates); City Court; business, occupational and a variety of other permits and licenses required under state or local law; building safety; traffic safety, zoning and planning. Public safety services include police, fire and emergency medical services. Public parking services are provided via various lots and garages. Public works services include street and sidewalk maintenance, storm water maintenance, snow and leaf removal, refuse collection and disposal, public water supply and distribution and sanitary sewers.

The City has a comprehensive recreational program serving all age levels, with 150 acres of public parks and open space (including a waterfront park), 33 tennis courts, two outdoor swimming pools and an ice-skating rink. The White Plains Public Library provides services from an 80,000 square foot building in the downtown and through its membership in the Westchester Library System, a consortium of 38 other libraries located in Westchester County. The library sponsors hundreds of cultural, recreational, educational and public service programs throughout the year. Its public space includes meeting and program rooms, a Museum Gallery, "The Trove" (a state of the art children's section) and "The Edge" (a high-tech library for teens, which opened December 14, 2013). Public cable television is provided by the White Plains Cable Television Commission. Production facilities include a fully equipped studio, editing suite and a full complement of location equipment. All productions are cablecast on Cablevision channel 76 and Verizon channel 45, the Community Access Channels. The Cable Commission also manages Cablevision channel 75 and Verizon channel 47, the City Government Access Channels. These channels cablecast the City government's programs, announcements, regularly scheduled Common Council meetings, Planning Board meetings and other City government meetings and events.

The City maintains a system of budgetary controls to ensure compliance with legal provisions embodied in the annual appropriated budget adopted by the Common Council. The level of budgetary control (i.e., the level at which expenditures cannot legally exceed the appropriated amount) is the major object of expenditure in a department within each fund. More information on the budgetary process can be found in Note 2 of the notes to the financial statements. The City has maintained a credit rating of Aa1 from Moody's Investors Service since 1988.

ASSESSING ECONOMIC CONDITION

Local Economy

The City is a suburb of New York City, located within the affluent County of Westchester. It serves as a major commuter hub as well as a suburban regional center due to its close proximity and accessibility to New York City. The City is headquarters for many corporations and functions as a major regional retail shopping center for the entire New York metropolitan area, which includes Fairfield County, Connecticut.

Access to New York City and the surrounding area is readily available by car, train, or bus. Major interstate highways such as I-287, I-95 and I-87, and a number of state and local parkways and highways go through, or are a short drive from, the City center. Westchester County Airport is only seven miles from the City. In 2012, the airport served approximately 1.75 million passengers and had approximately 161,000 total aircraft operations (<http://airport.westchester.gov> accessed October 22, 2014). The City is also close to three major international airports: LaGuardia (25 miles), John F. Kennedy (32 miles) and Newark-Liberty (40 miles). According to the 2010-2012 American Community Survey 3-Year Estimates, incomes within the City and the County compare quite favorably to New York State and the nation:

Income Type	City of White Plains	Westchester County	New York State	United States
Per Capita	\$46,129	\$ 46,985	\$31,444	\$27,385
Median Household	77,319	79,887	56,657	51,771
Median Family	94,284	102,577	68,750	63,105

Per the U.S. Department of Labor Statistics, the (not seasonally adjusted) Consumer Price Index – All Urban Consumers, All Items for New York–Northern New Jersey–Long Island, NY-NJ-CT-PA rose 1.7% from June 2013 to June 2014, which compares favorably to the 2.7% increase for the U.S. city average. Data provided by the U.S. Bureau of Labor Statistics shows a decline in unemployment rates (not seasonally adjusted) and that the City compares favorably to county, state and federal levels:

	City of White Plains	Westchester County	New York State	United States
June 2014	4.6%	5.1%	6.5%	6.3%
June 2013	5.8%	6.4%	7.8%	7.8%

Median home sales prices rose 5.8% from \$575,750 at fiscal year ended June 30, 2013 to \$609,000 at fiscal year end June 30, 2014.

The City has a very diverse economic base. While land use is predominantly residential, including numerous upper to middle income homes and a variety of multi-family structures and affordable homes, there is significant commercial and retail activity.

The composition of the City's land use is presented in the table below:

Class	Acres	Percentage
Residential	3,120	48.9%
Business	1,670	26.2%
Open Space	1,434	22.5%
Industrial	30	0.5%
Vacant	120	1.9%
Total	6,374	100%

Over the past decade more than \$2.8 billion of private redevelopment has been approved. Over \$1.75 billion of that redevelopment has been completed and over \$500 million is currently under construction. Many new residential and mixed use projects have been developed, with public and private funding invested in infrastructure to make the City a vibrant, attractive and “walkable” city. The City is active both day and night and addresses the needs of both its residents and the broader regional community who come to work, shop and enjoy the City's restaurants and entertainment. In 2014 the City was named among the top 50 cities in CNN Money Magazine's *Best Places to Live – Money's List of America's Best Small Cities* and in 2013 was a second-time winner in the America's Promise Alliance/ING *100 Best Communities* competition. Many employers are located within the City, including Verizon, AT&T, IBM, Con Edison, New York Power Authority, Amalgamated Life Insurance, ITT, Bloomingdales, Nordstrom Inc., Starwood Hotels and Resorts, J.P. Morgan Chase, Skadden Arps, Slate Meagher & Flom LLP, White Plains Hospital, Burke Rehabilitation Center, Heineken, Disney Publications and the Ritz Carlton Hotel.

Five enclosed shopping malls and major freestanding retailers have helped to make White Plains the center of retail activity for Westchester County and the broader multi-county market. With a combined area of almost four million square feet, retail stores in the City appeal to the consumer at all income levels. Major retailers include such highly-recognized names as Bloomingdale's, Nieman Marcus, Nordstrom, Macy's, Sears, Wal-Mart, Burlington Coat Factory, Target, Dick's Sporting Goods and Raymour and Flannigan. Smaller high-end shops located in The Westchester Mall include Tiffany's, Coach and Eileen Fisher. Total estimated average annual retail sales volume exceeds \$3 billion. In addition to its strong retail sector with over 11 million square feet of office space, White Plains is home to many large corporations and several banks and professional firms. Federal, state and county government operations utilize approximately 10% of the office space available in the City. There are three major hospitals: New York Presbyterian Westchester Campus, Burke Rehabilitation Center and White Plains Hospital Center. Proximity to these hospitals has been a major draw for medical professionals and support facilities. Colleges and universities have expanded in White Plains and include Berkeley College, The College of Westchester, Mercy College, Pace University and Westchester Community College. All of these sectors combine to make White Plains a regional center for corporate, finance, banking, legal services, health care and higher education. The White Plains Performing Arts Center provides the community with access to a full range of performing arts programs and activities, culturally enriching entertainment, unique programming, a conservatory theater, day camp programs and a venue for the City's community groups.

The City has experienced dramatic growth of its downtown core and surrounding area over the past decade, including construction of the Kensington Assisted Living Facility; rental projects including the 265-unit Gramercy and the 500-unit Bank Street Commons; the Jefferson at White Plains, a 281-unit residential condominium project and the 140-unit North Street senior assisted living community.

Developer interest in the City remains strong. Several new development projects are currently underway or proposed in downtown White Plains and along the Westchester Avenue and Post Road corridors. These include the major modernization and expansion project for White Plains Hospital Center and several residential, retail, and assisted living facilities projects. Mamaroneck Avenue between Main Street and East Post Road contains many eating and drinking establishments that draw patrons who live and work in the area. Several approvals were granted over the past year for new and expanded restaurants, cabarets and outdoor dining facilities.

Development projects recently approved, currently under construction, or recently completed will bring an additional 788 residential units, 63,000 square feet of retail and office space, 515 assisted living beds and a 139-room hotel to the City. These include Westchester Healthcare Properties, which received approval for a 180-bed nursing and rehabilitation facility on Church Street; Metropolitan Plaza, which recently opened and includes a 35,000 square foot retail component and 130-bed hotel; the Venue, which has received site plan approval to develop 42,000 square feet of "high end" retail space on Bloomingdale Avenue; La Gianna, an 86-unit rental housing project currently under construction; the Sycamore, a 24-unit rental housing project on Waller Avenue, and the previously mentioned North Street Community, which will be constructing approximately 335 independent age-restricted condominiums over the next three years.

Over \$100 million in major capital improvements that support the community and economic development have been accomplished, with over \$64 million funded from non-local sources, including the private sector and federal, state, and county levels of government. Municipal projects recently completed and/or currently underway include the Lyon Place Municipal Parking Garage, a 650 parking space, \$17.8 million garage that officially opened on August 25, 2014; the final closure of the Gedney Way Landfill in 2014, a \$12.2 million project that received long-term financing for \$10.8 million of project costs with a 50% interest rate subsidy from the New York State Environmental Facilities Corp.; over \$3 million of street improvements and over \$1.6 million of renovations to the library.

The City's economic base is further strengthened by its high quality transportation systems and easy commute to New York City and Fairfield County, Connecticut. Despite the national recession, projects continue to move forward in the residential, medical and housing sectors as noted above and the retail and office sectors are seeing the re-occupancy of major space. The City expects a gradual but full recovery in all sectors of its local economy over the next few years due to the diversity of its commercial base.

Long-Term Financial Planning and Major Initiatives

The City operates under the auspices of a comprehensive plan entitled *White Plains Vision - A Plan for the 21st Century* which serves as a planning guide for the City. Updates and revisions to this 1997 plan were adopted by the Common Council in July 2006 to recognize and incorporate changes in the economic, social and physical conditions of the City. The revised Comprehensive Plan will continue to serve as an important planning guide for the City well into

the future. The City's Planning Department also published a *2010-14 Consolidated Plan for Public Review*. These and other documents concerning long-term economic development and land use planning are available on the City's website at www.whiteplainsny.gov/planning.

In addition to its economic development, the City has invested in its public infrastructure to make the City a vibrant, attractive and active community both day and night. The City maintains a Charter-required six-year Capital Improvement Program that serves as a planning document to ensure that its facilities, equipment and infrastructure are well maintained and operating in peak condition. Under the guidance of a Capital Projects Board, this process gives the City the ability to plan for its capital needs and allocate short- and long-term resources accordingly. The City identifies and quantifies the operational costs associated with its capital projects and budgets the necessary resources. The City's Rolling Stock Committee monitors the condition of all City equipment and vehicles and makes recommendations on their replacement. The City maintains a vehicle replacement policy which serves as its fleet replacement guide over a ten-year period. Capital improvements totaling \$17 million are noted in the adopted budget for fiscal year ending June 30, 2015: rolling stock (\$2.8 million); public buildings (\$1.5 million); public parking (\$1 million); infrastructure (\$4.6 million); water system (\$5.5 million), and sewer system (\$1 million). Funding for these projects includes tax-supported debt (\$8.1 million); self-liquidating debt (\$7.5 million) and cash and grants (\$1.4 million).

Financial Policies

The City operates under a host of comprehensive financial policies. The City maintains an investment policy adopted by the Common Council that complies with Sections 10 and 11 of New York State General Municipal Law, which emphasize a conservative financial approach to the investment of municipal funds and collateralization of deposits in excess of FDIC insurance coverage. The City's investment policy is reviewed annually and amended as needed or desired.

The City maintains a procurement policy adopted by the Common Council in accordance with Section 104-b of New York State General Municipal Law. This policy outlines all bidding and procurement procedures that City departments must adhere to when purchasing goods and services. The Department of Purchasing is responsible for the administration of this policy.

The City is self-insured for general liability, Workers Compensation and other risks, purchasing insurance policies where it is prudent and cost effective. The City continuously assesses its risks and annually reviews and determines the appropriate mix of self-insurance and outside coverage.

The City maintains a set of Fiscal Performance Goals, which were adopted by the Common Council in 1981 and last amended with the adoption of the 2014-2015 annual budget May 19, 2014. These goals establish written policies for guiding the City's financial management practices. While some performance goals are specific and limit certain types of financial activity, the goal statements are not intended to restrict management's ability or responsibility to respond to emergency or service delivery needs above and/or beyond the limitations established by the fiscal performance goals. The fiscal performance goals follow this transmittal letter.

The City continuously monitors its budget and prepares quarterly unaudited financial reports and multi-year financial forecasts. As a result, the City is able to plan for all of its projects and purchases in accordance with available financial resources.

AWARDS AND ACKNOWLEDGMENTS

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a *Certificate of Achievement for Excellence in Financial Reporting* to the City for its Comprehensive Annual Financial Report for the fiscal year ended June 30, 2013. This was the 33rd consecutive year that the City has received this prestigious award. In order to be awarded a certificate of achievement, a governmental unit must publish an easily readable and efficiently organized comprehensive annual financial report whose contents must conform to GFOA standards. This report must satisfy both generally accepted accounting principles and applicable legal requirements. A certificate of achievement is valid for a period of one year only. We believe that our current report continues to meet the certificate of achievement program's requirements and we are submitting it to GFOA to determine its eligibility for another certificate.

The City also received the GFOA's *Distinguished Budget Presentation Award* for its annual budget document for the 2013-2014 fiscal year. The City of White Plains was the first municipality in New York State to receive this award and the most recent one marks our 30th consecutive year. In order to qualify for the *Distinguished Budget Presentation Award*, the City's budget document was judged to be proficient in several categories, including as a policy document, a financial plan, an operations guide and as a communication device. The City has submitted its 2014-2015 Annual Budget document to the GFOA and anticipates receiving the award for this document as well.

The preparation of this report would not have been possible without the dedicated services of the entire finance department staff and the assistance of all City departments concerning information specific to their operations. Our gratitude is extended to our Mayor, the Common Council and the Chief of Staff, who continuously strive to enhance the quality of life for our citizens. The input from our independent auditor was invaluable and we commend them on their timely and professional completion of our audit. Most importantly, our heartfelt thanks go to our citizens and residents, for giving us the opportunity to serve our fine City.

Respectfully Submitted,

CITY OF WHITE PLAINS, NEW YORK

Organizational Chart

CITY OF WHITE PLAINS, NEW YORK
SUMMARY OF SIGNIFICANT ACCOUNTING, BUDGETING AND MANAGEMENT POLICIES
MAY 19, 2014

ACCOUNTING AND BUDGETING PRACTICES AND INTERNAL CONTROL PROCEDURES:

The following information, while technical in nature, is provided to inform the interested reader of significant accounting practices and internal control mechanisms adhered to by the City of White Plains and how they are utilized to ensure that government resources are managed and accounted for in compliance with applicable laws and regulations.

Basis/Focus: The City's operating funds budgets, i.e. General Fund, Library Fund, Self-Insurance Fund, Water Fund, Sewer Rent Fund and Debt Service Fund are prepared on a basis consistent with Generally Accepted Accounting Principles (GAAP) as promulgated by the Governmental Accounting Standards Board (GASB) and the best practices and advisories set forth by the Government Finance Officers Association of the United States and Canada (GFOA).

Governmental funds (General Fund, Debt Service Fund and Library Fund) are accounted for using the current financial resources measurement focus and the modified accrual basis of accounting. Under the modified accrual basis of accounting, revenues are recognized in the accounting period in which they become susceptible to accrual, that is, when they become both "measurable" and "available" to finance expenditures of the fiscal period. "Measurable" means the amount of the transaction can be determined and "available" means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. Expenditures are recorded when the related liability is incurred, except for interest that has not matured on general long-term debt and compensated absences which are recognized when due.

Proprietary Funds (Self-Insurance Fund, Water Fund and Sewer Rent Fund) are accounted for using the economic resources measurement focus and accrual basis of accounting. Under this method, revenues are recorded when earned and expenses are recorded at the time liabilities are incurred.

Internal Controls: The City of White Plains employs a system where budgetary accounts are formally integrated with the City's general ledger accounts. As a result, budgetary financial statements present actual vs. budgetary comparisons, thus enhancing budgetary control and management decision making. The City also utilizes encumbrance accounting to assure effective budgetary control and accountability and to facilitate effective cash planning and control.

Encumbrances are commitments related to unperformed (executory) contracts for goods or services and are recorded and reported as restrictions, commitments or assignments of fund balance. Outstanding encumbrances do not constitute expenditures or liabilities.

Other internal controls employed by the City in the management of its resources includes formal review procedures in the filling of vacant positions (Position Control), in the processing of purchase orders and contracts, payroll transactions, inventory and in the handling of cash. Funding for vacant positions is not provided in the City's budget.

Budget Amendments: The City's Charter establishes the procedures for amending the operating and capital budgets during the fiscal year and for the processing of transfers between appropriations.

The Common Council must formally approve amendments to the budget that increase overall spending or the spending level of individual departments. Transfers within the budgets of departments may be made by the Budget Department within specified limits as requested by department heads or deemed necessary by the Budget Director. The Budget Director may also employ a budgetary allotment system and may set aside an amount not to exceed twenty percent of unobligated appropriations for possible emergencies arising during the budget year.

Independent Audit: The City of White Plains issues a Comprehensive Annual Financial Report (CAFR) which is audited by an independent certified public accountant. The City's financial records are also audited on a periodic basis by the Office of the Comptroller of the State of New York. The City of White Plains has earned the GFOA's *Certificate of Achievement for Excellence in Financial Reporting* each year since 1981 and the GFOA's *Distinguished Budget Presentation Award* each year since 1984.

MANAGEMENT POLICIES - FISCAL PERFORMANCE GOALS

The City's Fiscal Performance Goals, which were originally adopted by the Common Council on May 18, 1981 and subsequently amended and re-adopted through May 19, 2014 represent ongoing policies to guide the City's financial management practices. While some of the performance goals are specific and will limit certain types of financial activity, the goal statements are not intended to restrict the Common Council's ability and responsibility to respond to emergencies or service delivery requirements above or beyond the limitations established by the Fiscal Performance Goals. The City's goals are:

REVENUE PERFORMANCE GOALS

- The City will maintain a diversified and stable revenue system as protection from short-run fluctuations.
- The City will estimate annual revenues on an objective and reasonable basis. The City will develop a method to project revenues, expenditures/expenses and fund balance on a multi-year basis.
- The City will use one-time or special purpose revenues for capital expenditures, reduction of outstanding debt or for expenditures required by the revenue, and not to subsidize recurring operating and maintenance costs.
- The City will establish and annually re-evaluate all user charges and fees at a level related to the cost of providing the services.
- The City will endeavor to reduce reliance on the property tax by developing and expanding alternative revenue sources.
- The City will endeavor to improve and diversify the City's mix of commercial and residential properties.
- The proprietary funds (Self-Insurance Fund, Water Fund and Sewer Rent Fund) will maintain revenues sufficient to support their respective full direct and indirect costs.

OPERATING EXPENDITURES PERFORMANCE GOALS

- The Budget Director will propose and the Common Council will adopt and maintain a balanced budget in which expenditures will not be allowed to exceed reasonable estimated resources and revenues.
- The City will pay for all current operating and maintenance expenses from current revenue sources.
- The operating budget will provide for the adequate maintenance of capital assets and equipment.
- The budget will provide for adequate funding of all employee benefit programs.
- The City will maintain a budgetary control system that will enable it to adhere to the adopted budget.
- The City will maintain a system of financial and budgetary reporting that provides comparative actual to budget results.
- The City will develop and implement an effective risk management program to minimize losses and reduce costs. The Common Council will ensure that adequate resources and insurance are in place. This shall include coverage for general and automobile liability, unemployment and Workers Compensation.
- The City will encourage delivery of services by other public and private organizations whenever and wherever greater efficiency and effectiveness can be expected, as well as to develop and internally use technology and productivity advancements that will help reduce or avoid increasing personnel costs. The intent is to control personnel costs as a proportion of the total budget, to more productively and creatively use available resources, and to avoid duplication of effort and resources.

RESERVE PERFORMANCE GOALS

- The City will establish annually in the operating budget a reserve for financing to:
 - provide for settlement of pending labor contract negotiations;
 - provide for temporary funding of unforeseen needs of an emergency or non-recurring nature;
 - permit orderly budgetary adjustments when revenues are lost through the actions of other governmental bodies;
 - provide the local match for public or private grants; and
 - meet unexpected small increases in service delivery costs.
- The reserve for financing will be budgeted at a level sufficient to provide for settlement of pending labor contract negotiations plus an amount not to exceed one percent (1%) of the proposed tax budget. Use of the contingency funds will only be by action of the Common Council. The reserve for financing shall be separate from any component of fund balance (restricted, committed or assigned) used to fund subsequent year's expenditures.
- The City will maintain an employee position control reserve account. Funding will be provided from salary lines plus related benefits as positions become vacant during the fiscal year. Funding for personnel to fill authorized but unfilled budgetary salary positions will be provided from the position control reserve account. The Budget Department will be responsible for the control of the reserve account. The Personnel Department will be responsible for ensuring that positions are filled only when adequate funds are available in the reserve account.
- The City will maintain spendable fund balance in an amount necessary to maintain adequate cash flow to prevent the demand for short-term borrowing, the disruption of

services to its citizens due to unexpected temporary revenue shortfalls or unpredicted one-time expenditures and the need for large increases in the property tax rate . The fund balance has been accumulated to provide stability and flexibility to respond to unexpected adversity and/or opportunities.

- The fund balance comprised of amounts restricted for tax stabilization or subsequent year's expenditures, amounts assigned for subsequent year's expenditures, plus unassigned fund balance shall be maintained at a minimum of fifteen percent (15%) of the General Fund total expenditures and shall be separate from the amount provided for in the reserve for financing.
- When the previously identified fund balance comprised of amounts restricted for tax stabilization or subsequent year's expenditures, amounts assigned for subsequent year's expenditures, plus unassigned fund balance falls below the 15% of total expenditures target, a plan shall be developed to replenish the deficient amount as soon as is necessary and/or reasonable, but in no event over a period greater than five years after the original determination was made that the amount was below target level.
- The Common Council is the highest level of decision-making authority and may restrict, commit, or assign portions of fund balance by adopted resolution and/or ordinance. The Common Council has designated the Commissioner of Finance as the official having authority to assign portions of fund balance categories based on generally accepted accounting principles. The City will expend funds in the following order: restricted first, the committed, then assigned, and lastly, unassigned.

INVESTMENT PERFORMANCE GOALS

- The City's primary investment performance objectives, in priority order, shall be legality, safety, liquidity and yield.
- The City will develop a cash flow analysis of all funds on a regular basis. Collections, deposits and disbursements of all funds will be scheduled to ensure maximum cash availability.
- The City will optimize the return on all cash investments.
- Where permitted by law, cash from several separate funds and sources will be pooled to optimize investment yields. Interest will be credited to the sources of the invested monies.
- The Department of Finance will provide quarterly information to the Common Council concerning investment performance.

CAPITAL IMPROVEMENTS PERFORMANCE GOALS

- Capital improvements will be based on long range projected needs rather than on immediate needs in order to minimize future maintenance, replacement, and capital costs.
- All capital improvements will be made in accordance with the City's approved five year capital improvement program (CIP). The CIP shall be updated annually.
- The development of the CIP will be coordinated with the operating budget in order to maintain a reasonably stable total tax levy.
- The City will identify the estimated cost and potential funding sources for each capital project proposed in the CIP before submission to review bodies and the Common Council.
- Future annual costs associated with a proposed capital improvement, including annual debt service and operating and maintenance costs will be estimated and included in the

CIP and updated if necessary before a decision to implement a project is made by the Common Council.

- Federal, State and other intergovernmental and private funding sources shall be sought out and used as available to assist in financing capital improvements.

DEBT PERFORMANCE GOALS

- The City will limit long-term debt to only those capital improvements that cannot be financed from current revenues.
- The maturity of any debt will not exceed the period of probable usefulness (PPU) provided for in the New York State Local Finance Law.
- Thirty percent (30%) of the City's available general obligation debt limit shall be reserved for emergency purposes.
- As a means of further minimizing the impact of debt obligations on the City taxpayers:
 - The total net indebtedness (total general obligations less exclusions for water projects, sewer projects and current debt principal appropriations) shall not exceed five percent (5%) of the full assessment value of taxable property;
 - long-term net debt shall not exceed \$2,000 per capita;
 - these limitations shall not apply to any debt incurred for emergency purposes.
- The City will avoid the issuance of budget, tax and revenue anticipation notes.
- The City will issue debt that will be repaid from special assessments, specific revenues (such as water rents, sewer rents, parking revenues, etc.) and/or any source other than property taxes ("self-liquidating debt") whenever reasonable and appropriate.
- The City will prepare and distribute an official statement whenever required for the issuance of debt and maintain compliance with the annual reporting requirements of Securities and Exchange Commission (SEC) Rule 15c2-12 (municipal securities disclosure).
- The City shall encourage and maintain good relations with financial and bond rating agencies, and will follow a policy of full and open disclosure on every financial report and official statement.

FINANCIAL REPORTING PERFORMANCE GOALS

- The City will adhere to a policy of full and open public disclosure of all financial activity. The proposed tax budget will be prepared in a manner to maximize its understanding by citizens and elected officials. Copies of financial documents will be made publicly available. Opportunities will be provided for full citizen participation prior to final decisions on adopting the budget. Detailed budgetary information; i.e. specific sources of revenue and objects of expenditure, will be made publicly available.
- The City shall include in the proposed and adopted tax budget documents an explanation as to how the budget compares to the City's Fiscal Performance Goals.
- The City's accounting system will maintain records on a basis consistent with generally accepted accounting principles.
- The Commissioner of Finance will prepare regular quarterly and annual financial reports presenting a summary of financial activity by major types of funds and programs.
- The City will prepare The Comprehensive Annual Financial Report in conformity with generally accepted accounting principles and financial reporting best practices.
- The City will employ an independent certified public accounting firm to perform an annual audit of all funds, authorities, agencies, and grant programs and will make the annual audited report publicly available. The audit shall be completed and submitted to the Common Council within 180 days of the close of the City's fiscal year.

- The annual audit of the City will be conducted in accordance with auditing standards generally accepted in the United States of America and *Government Auditing Standards* issued by the Comptroller General of the United States and in conformity with accounting principles generally accepted in the United States of America.
- The annual audit of the City will comply with the requirements of the U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments and Non-Profit Organizations* (“Single Audit”).
- The City each year will submit its CAFR to the GFOA for the GFOA’s *Certificate of Achievement for Excellence in Financial Reporting* award program.

FINANCIAL SECTION

Independent Auditors' Report

**The Honorable Mayor and Common Council
of the City of White Plains, New York**

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund and the aggregate remaining fund information of the City of White Plains, New York ("City") as of and for the year ended June 30, 2014, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund and the aggregate remaining fund information of the City, as of June 30, 2014, and the respective changes in financial position and, where applicable, cash flows thereof and the respective budgetary comparison for the General Fund for the year then ended in accordance with accounting principles generally accepted in the United States of America.

O'Connor Davies, LLP is a member firm of the PKF International Limited network of legally independent firms and does not accept any responsibility or liability for the actions or inactions on the part of any other individual member firm or firms.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that Management's Discussion and Analysis and the Schedule of Funding Progress – Other Post Employment Benefits be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary and Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City's basic financial statements. The combining and individual fund financial statements and schedules, the schedule of expenditures of federal awards as required by U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments and Non-Profit Organizations* and the introductory and statistical sections are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining and individual fund financial statements and schedules and the schedule of expenditures of federal awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated November 19, 2014 on our consideration of the City's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City's internal control over financial reporting and compliance.

**CITY OF WHITE PLAINS, NEW YORK
MANAGEMENT'S DISCUSSION AND ANALYSIS
Fiscal Year Ended June 30, 2014**

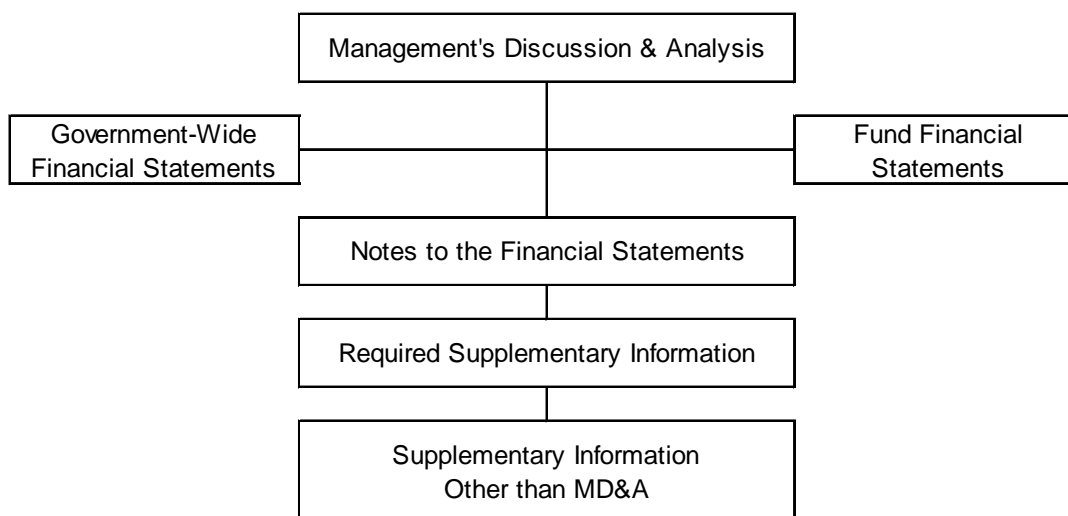

The City of White Plains, New York ("City") presents this Management's Discussion and Analysis ("MD&A") as an overview of the City's financial activities for the fiscal year ended June 30, 2014. This MD&A focuses on current year activities, resulting changes to net position and currently known facts. This MD&A should be read in conjunction with the transmittal letter and the City's financial statements, including the notes to the financial statements.

Financial Highlights

- The City's total net position (assets and deferred outflows of resources, less liabilities and deferred inflows of resources) at June 30, 2014 was \$111.2 million. The net position of governmental activities was \$78.6 million (including an unrestricted net position deficit of \$92.7 million), and the net position of business-type activities was \$32.6 million (including an unrestricted net position of \$6.5 million).
- The City's total net position decreased \$28 million (20.1%) from the prior fiscal year. The net position of governmental activities decreased \$29 million (27%) and net position of business-type activities increased \$1 million (3.2%).
- General revenues for the year ended June 30, 2014 were \$124.6 million compared to \$117.4 million for year ended June 30, 2013; an increase of \$7.2 million (6.1%). Program revenues of \$58.6 million for the year ended June 30, 2014 were \$9 million (13.3%) less than the \$67.6 million of program revenues reported for the prior fiscal year.
- Primary government expenses of \$211.2 million reported for fiscal year ended June 30, 2014 increased \$2.4 million (1.1%) over primary government expenses of \$208.8 million reported for the year ended June 30, 2013.
- Net program expenses of \$152.6 million were reported for the primary government for fiscal year ended June 30, 2014. This compares with \$141.3 million of net program expenses reported for fiscal year ended June 30, 2013.
- At June 30, 2014, the City's governmental funds reported combined fund balances of \$43.5 million. Of this amount, \$1.8 million is not in spendable form or is required to be maintained intact; \$21.9 million is legally restricted; \$0.7 million is committed and \$11.7 million has been assigned by the Common Council or Commissioner of Finance, leaving \$7.4 million as unassigned.
- The City's total bonded debt at June 30, 2014 was \$138.7 million, an increase of \$25.9 million (22.9%) from the \$112.8 million outstanding at the prior fiscal year end.

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the City's basic financial statements, which consist of three components: 1) the government-wide financial statements, 2) the fund financial statements and 3) the notes to the financial statements. This report also includes supplementary information, which is intended to give the reader additional detail in support of the basic financial statements.

Government-wide Financial Statements

The government-wide financial statements are designed to provide readers with a broad overview of the City's finances in a manner similar to a private-sector business.

The statement of net position presents financial information on all of the City's assets, liabilities, and deferred inflows/outflows of resources, with the difference reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the City is improving or deteriorating.

The statement of activities presents information showing how the City's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

Each of the government-wide financial statements distinguishes "governmental activities" of the City that are principally supported by taxes and intergovernmental revenues from "business-type activities" of the City that recover all or a significant portion of their costs through external user fees and charges. Governmental activities includes basic services provided by the City, such as the work of elected officials and general government services (licenses and permits; birth, death and marriage certificates, etc.), public works, parking, public safety, recreation and culture, and community services. The City's business-type activities include the supply and distribution of clean drinking water and the provision of sanitary sewer services.

The City's government-wide financial statements include not only the statements of the City itself (known as the primary government), but that of its legally separate component units for which the City is financially accountable and for which there exists a financial benefit or burden to the City. Financial information for these component units is reported separately ("discretely presented") from the financial information presented for the primary government. The White Plains Urban Renewal Agency and the White Plains Cable Television Commission are reported in the government-wide financial statements as discretely presented component units.

Fund Financial Statements

A fund is defined as a fiscal and accounting entity with a self-balancing set of accounts recording

cash and other financial resources, together with all related liabilities and residual equities or balances, and changes therein, which are segregated for the purpose of carrying on specific activities or attaining certain objectives in accordance with special regulations, restrictions or limitations. The City, like other governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the City's funds can be divided into three categories: governmental funds, proprietary funds and fiduciary funds.

Governmental Funds

Most of the City's basic services are reported in the governmental funds. The activities reported are essentially the same as those presented in the governmental activities section of the government-wide financial statements. However, unlike the government-wide financial statements, the governmental fund financial statements focus on near-term inflows and outflows of spendable resources (the budget), as well as on balances of spendable resources available at year end (fund balance). Such information may be useful in assessing a government's near-term financing requirements.

Since the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the City's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The City maintains 18 individual governmental funds (a General Fund, Capital Projects Fund, Debt Service Fund, Permanent Fund and 14 Special Revenue Funds). The General Fund and the Capital Projects Fund are considered "major" funds and the remaining 16 governmental funds are considered "nonmajor" funds. The major funds are presented separately and the nonmajor funds are combined and reported in the aggregate in the governmental funds balance sheet and in the governmental funds statement of revenues, expenditures and changes in fund balance. The nonmajor funds are presented separately in the combining and individual fund financial statements.

The City adopts annual budgets for its General Fund, Library Fund and Debt Service Fund. A budgetary comparison statement has been provided for the General Fund and budgetary comparison schedules have been provided for the Library Fund and Debt Service Fund to demonstrate compliance with their respective adopted budgets. Multi-year capital projects budgets are adopted individually in accordance with the City's Capital Improvement Program.

Proprietary Funds

Proprietary funds are operated and accounted for much like a private-sector business. The proprietary fund category includes "enterprise funds", which are used to report an activity for which a fee is charged predominantly to *external* users of goods or services, and "internal service funds", which are used to report an activity for which a fee is charged predominantly to *internal* users of goods or services.

The Water Fund and the Sewer Rent Fund are enterprise funds, charging customers for the use of City-provided water and sanitary sewers, respectively. The services provided by the Water Fund and the Sewer Rent Fund have been classified as business-type activities in the government-wide financial statements because they predominantly benefit external customers.

The Self Insurance Fund is an internal service fund, charging other City departments for costs related to risk management and insurance services. The services provided by the Self Insurance Fund have been classified as governmental activities in the government-wide financial statements because they predominantly benefit governmental, rather than business-type, functions.

Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail and with the addition of a statement of cash flows.

Fiduciary Funds

Fiduciary funds are used to report assets held in a trustee or agency capacity for others. Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support City programs. The City maintains one fiduciary fund: the Agency Fund. The resources of the Agency Fund are held by the City in a custodial capacity for individuals, private organizations and other governments.

Notes to the financial statements

The notes to the financial statements provide additional information that is essential for fair presentation and that is not otherwise displayed on the face of the financial statements. As such, the notes are an integral part of the basic financial statements and should be read in conjunction with the financial statements. The notes focus on the primary government – specifically, its governmental activities, business-type activities, major funds and nonmajor funds in the aggregate. Information concerning the City's component units is also provided in the notes.

Other Information

In addition to the basic financial statements and notes to the financial statements, this report also presents required supplementary information (RSI) concerning the City's progress in funding its obligation to provide other post-employment benefits (OPEB) to its employees. RSI immediately follows the notes to the financial statements.

This report also includes supplementary information (SI), which immediately follows RSI and gives the reader further detail on the information presented in the basic financial statements. Included in SI are the individual and combining nonmajor governmental fund financial statements and schedules; the project length schedule for the Capital Projects Fund and the OMB Circular A-133, *Audits of States, Local Governments and Non-Profit Organizations* compliance audit of federal awards programs.

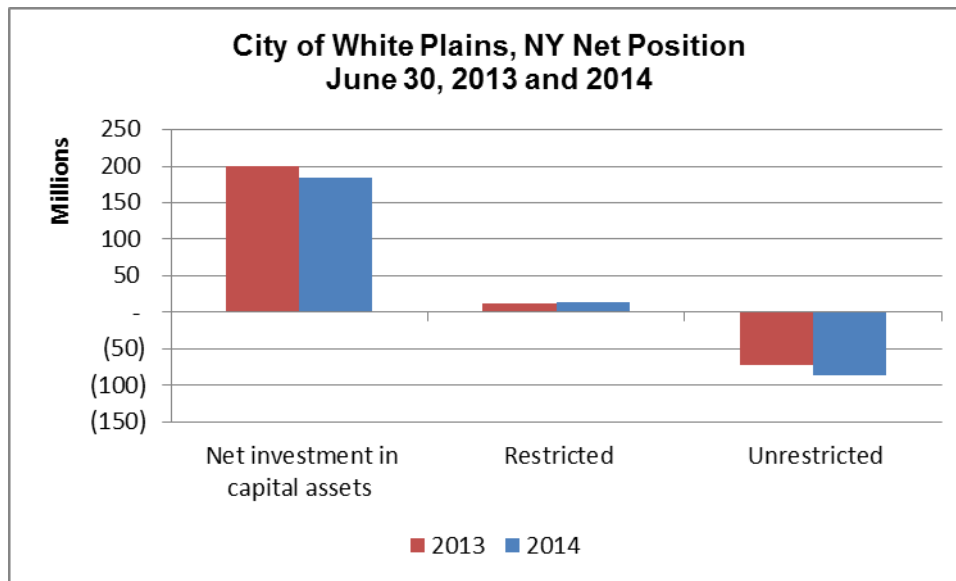

Government-wide Financial Analysis

The largest portion of the City's net position reflects its investment in capital assets (land, buildings and facilities, machinery and equipment, rolling stock and infrastructure), less accumulated depreciation and any outstanding debt that was used to acquire those assets. The City uses these capital assets to provide a variety of services to its citizens and as a result these assets are not available for future spending.

Although the City's investment in capital assets is reported net of related debt, the resources used to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

A portion of the City's net position is restricted, representing external restrictions imposed by creditors, grantors, contributors, or laws or regulations of other governments, or imposed by law through constitutional provisions or enabling legislation. From fiscal 2013 to fiscal 2014, the restricted portion of net position increased by \$1.3 million. The City's unrestricted net position decreased \$14.3 million from the prior fiscal year.

The City's total net position decreased \$28 million during fiscal 2014, with \$24 million of this decrease attributable to the actuarially-determined increase in OPEB costs.

When compared to last fiscal year, total revenues fell \$1.7 million. Increased rates in taxes and fees accounted for an increase in tax revenues of \$4.1 million and an increase in revenues from services of \$3.7 million. Capital grants and federal and state aid generated increases \$0.3 million in each of these revenue categories. A one-time payment related to a property sale agreement of \$2.8 million also contributed to the positive revenue results. All of these increases were offset by a \$12.8 million reduction in operating grants and contributions, due to the discontinuance of the \$4.8 million Section 8 program previously managed by the City; a property agreement that generated approximately \$5 million, and various other federal and state grants for disaster aid received in the prior fiscal year.

When compared to last fiscal year, total expenses increased \$2.4 million. Salaries and benefits increased \$3.1 million in accordance with contractual and legislative requirements. Costs associated with materials and contracted services increased \$2.9 million to address a particularly hard winter (road repair and maintenance, electricity) and surcharges from the New York City Water Board, our main supplier of drinking water. These increases were offset by savings from the discontinuance of the Section 8 program previously managed by the City.

Governmental Activities

Governmental activities net position decreased \$29 million (27%) from the prior year.

Total revenues from governmental activities decreased \$3 million (1.7%) from \$170.3 million in fiscal 2013 to \$167.3 million in fiscal 2014. General revenues (taxes, intergovernmental, franchise fees and investment earnings) represented 74% of these revenues while program revenues represented the remaining 26%.

The major revenue sources from governmental activities in fiscal 2014 included property taxes (\$57.1 million), sales taxes (\$51.9 million) and charges for services (\$39.7 million). Property tax revenues increased \$2.1 million (3.7%) due to a fiscal 2014 property tax rate increase of 3.9%. Charges for services increased \$2.5 million due to increases in parking, recreation and parks, and youth bureau fees. Operating grants and contributions decreased \$13.1 million due to the discontinuance of the Section 8 program previously managed by the City and one-time revenues received in fiscal year 2012-2013 related to a property agreement and disaster aid received last year from federal and state sources.

**City of White Plains, New York
Governmental Activities - Primary Government
Revenues by Source**

Governmental activities program expenses increased \$1.1 million (0.6%) over fiscal 2013, the net result of increases in salaries and benefits, and contractual costs related to harsh winter weather being offset by decreases from the discontinuance of the Section 8 program.

**City of White Plains, New York
Governmental Activities - Primary Government
Expenses and Revenues by Program
(Millions of Dollars)**

Business-type Activities

Total net position for the business-type activities (Water Fund and Sewer Rent Fund) increased \$1 million (3.2%) from the prior fiscal year. Total net position at June 30, 2014 was \$32.6 million, consisting of a \$26.1 million net investment in capital assets and \$6.5 million in unrestricted net position.

Charges for services increased \$1.1 million from \$14.2 million in fiscal 2013 to \$15.3 million in fiscal 2014. Of this amount, \$0.9 million represents increased metered water sales (from \$12 million to \$12.9 million) and the remaining \$0.2 million represents increased sewer rents, both of which are the result of fiscal 2014 increases in rates, fees and charges.

Operating expenses increased \$1.3 million from \$13.6 million in fiscal year 2013 to \$14.9 million in fiscal 2014, predominantly due to an increase in the price of water purchased from the New York City Water Board.

Financial Analysis of Governmental Funds

As noted earlier, the City uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental Funds

The focus of the City’s governmental funds is to provide information on near-term inflows, outflows and balances of spendable resources. Such information is useful in assessing the City’s financing requirements. In particular, spendable fund balance may be a useful measure of a government’s net resources available for spending at the end of the fiscal year.

At June 30, 2014, the City’s governmental funds reported combined fund balances of \$43.5 million. Of this amount, \$1.8 million is nonspendable because it is not in spendable form (inventory, prepaid items, and long-term receivables) or represents an amount required to be maintained intact in perpetuity (endowment). The remaining \$41.7 million of fund balance is in spendable form as follows; \$21.8 million is restricted to specific uses by laws or regulations, debt covenants, grantors, contributors and/or enabling legislation; \$0.7 million has been committed by the Common Council for recreation, open space and parking improvements; \$11.8 million has been assigned by the Common Council or the Commissioner of Finance for purchases on order, tax certiorari and for subsequent year’s expenditures, leaving \$7.4 million of fund balance unassigned to any specific purpose.

Significant changes that account for the \$10.2 million increase in the City’s governmental fund balances from fiscal year 2013 (\$33.3 million) to fiscal year 2014 (\$43.5 million) can be found in

the restricted component of fund balance.

General Fund

The City's main operating fund is the General Fund and the majority of the City's programs and activities are supported by this fund.

At June 30, 2014, total fund balance of the General Fund was \$33.3 million, an increase of \$.9 million (2.7%) from the prior fiscal year. Of the \$33.3 million total fund balance, \$1.7 million is not in spendable form (inventory, prepaid items, and long-term receivables). The remaining \$31.6 million of fund balance is in spendable form as follows; \$11.8 million is restricted to specific uses by enabling legislation (tax stabilization arrangement) and the White Plains Housing Authority; \$0.7 million has been committed by the Common Council for recreation and open space purposes. The Common Council has assigned \$5.4 million for subsequent year's expenditures as part of the adopted 2014-2015 budget and the Commissioner of Finance has assigned \$1.1 million and \$5.2 million for purchases on order and tax certiorari, respectively. The remaining \$7.4 million represents unassigned fund balance.

Revenues of the General Fund exceeded expenditures by \$11.9 million. When offset by other financing uses (net) of \$11 million, fund balance increased \$.9 million from \$32.4 million to \$33.3 million.

Comparing fiscal 2014 to 2013, total General Fund revenues increased \$2.9 million (1.9%) from \$149.7 million to \$152.6 million. Of this amount, increases in property tax revenues (\$1.8 million) attributed to a 2014 property tax rate increase of 3.9%; sales taxes (\$2 million) related to increased retail sales activity; charges for services (\$1.4 million) related to increased parking rates and building permits (\$0.8 million) related to an increase in building activity, were offset by a \$1.1 million decrease in federal aid (the City received FEMA Superstorm Sandy aid in fiscal 2013) and a \$2.1 million decrease in miscellaneous revenue (associated with a one-time contribution from a developer received in fiscal 2013).

Total General Fund expenditures for fiscal 2014 were \$5.5 million (4%) higher than the \$135.2 million reported for fiscal 2013. Salary and wages increased \$.9 million due to contracted increases and employee benefits increased \$1.7 million (4%) due to increased pension rates charged by the New York State Retirement System. Materials and supplies were up \$1.2 million, due to higher cost for electricity. Direct costs increased \$0.3 million, predominantly due to an increase in the contribution to Self Insurance.

Capital Projects Fund

The Capital Projects Fund at June 30, 2014 had a total fund balance of \$3.7 million.

Proprietary Funds

The City's proprietary funds consist of two enterprise funds (Water Fund and Sewer Rent Fund) and one internal service fund (Self Insurance Fund). Factors concerning the finances of the Water Fund and the Sewer Rent Fund have already been addressed in the discussion on the City's business-type activities.

The total net position of the Self Insurance Fund at June 30, 2014 was a negative unrestricted \$4.9 million, a \$2 million increase from the \$2.9 million deficit net position reported at June 30, 2013. Comparing fiscal 2013 to 2014, total operating revenues increased \$0.5 million (9.9%) from \$5.4 million to \$5.9 million and total operating expenses increased \$0.1 million (1.1%) from \$7.9 million

to \$8.0 million.

General Fund Budgetary Highlights

The General Fund's original appropriations budget (not including transfers out to other funds) of \$144.1 million was increased \$1.2 million (1%) to \$145.3 million through amendments during the fiscal year, to account for various grants awarded and adjustments to interfund service charges required after budget adoption.

Actual expenditures for fiscal year ended June 30, 2014 were \$140.7 million, coming under the final amended budget by \$4.6 million (3.2%). The City typically realizes various expenditure savings throughout the year due to its very conservative budgeting practices and its use of a position control account to monitor and control personnel costs.

The difference between the General Fund's original estimated revenues budget (estimated revenues do not include appropriated fund balance or transfers in from other funds) of \$141.6 million and final budget of \$142.9 million reflects the recognition of grant awards and contributions received after budget adoption. The City's actual total revenues for fiscal year ended June 30, 2014 were \$152.6 million, a variance of \$11 million (7.8%) over the original budget and \$9.7 million (6.8%) over the final amended budget. A \$6.8 million variance of actual sales tax revenues and a \$1.6 million variance of actual miscellaneous revenues (a contribution from a developer) over the final amended budget accounts for essentially all of this variance. As part of its conservative budgeting practices, the City does not budget for that portion of sales tax revenues restricted by law to a contingency and tax stabilization account ("rainy day fund"), which accounts for the variance in sales tax revenues.

Capital Assets and Debt Administration

Capital Assets

At June 30, 2014, the City's net investment in capital assets for its governmental and business-type activities totaled \$311.6 million, an increase of \$11.2 million from the prior fiscal year. This reflects the City's investment in all of its capital assets including land, buildings and facilities, machinery and equipment, rolling stock, infrastructure and construction-in-progress. Major capital activities during the 2014 fiscal year included:

- Construction (still underway) of the Lyon Place Garage (\$15.4 million)
- Completion of the Gedney Way Landfill Closure (\$3.4 million)
- Renovations to the first floor of the White Plains Public Library (\$1.6 million)
- Various road improvements (\$1.5 million)
- Acquisition of \$1.2 million of heavy duty rolling stock
- Depreciation expense of \$6.5 million charged against buildings and facilities
- Depreciation expense of \$2.1 million charged against equipment and rolling stock
- Depreciation expense of \$6.6 million charged against infrastructure

Further information on the City's capital asset activity for the fiscal year ended June 30, 2014 can be found in Note 3 of the notes to the financial statements.

Long-term Debt

At June 30, 2014, the City had total bonded debt outstanding of \$136.6 million, an increase of \$26.2 million from the \$110.5 million outstanding at the end of the prior fiscal year, reflecting the

issuance of \$33.6 million of new serial bonds, offset by \$7.4 million of debt principal liquidated pursuant to amortization schedules. New York State laws provide that the City can only issue general obligation bonds backed by the full faith and credit of the City. Debt of the City's enterprise funds (Water Fund and Sewer Rent Fund) represented \$12.5 million of total debt outstanding at fiscal year end.

During the year, the City issued \$33.6 million of general obligation bonds to fund various capital projects, including \$16.4 million for construction of the Lyon Place Garage and \$1.2 million for other parking facilities and lots; \$11.9 million for closure of the Gedney Way Landfill; \$2.1 million for rolling stock, equipment and information technology systems; \$1.3 million for Library renovations and \$0.1 million for replacement of the Library plaza surface, and \$0.6 million for improvements to our water and sewer systems.

At June 30, 2014 the City had authorized but unissued long-term debt in the amount of \$12.7 million, including \$4.9 million for water system improvements; \$3.3 million for park improvements and \$4.5 million for various other capital improvements.

The City is subject to a constitutional debt limit pursuant to Article VIII of the State Constitution and Title 9 of Article 2 of the Local Finance Law. This debt limit is equal to 7% of the latest five-year average full valuation of all taxable real property within the City. At June 30, 2014, the City exhausted 17.9% of its constitutional debt capacity and had the authority to issue up to an additional \$480 million of general obligation long-term debt.

Pursuant to the New York State Local Finance Law and the City Charter, the City authorizes the issuance of bonds by the adoption of a bond ordinance approved by two-thirds of the members of the Common Council. Customarily, the Common Council has delegated to the Commissioner of Finance, as Chief Fiscal Officer of the City, the power to authorize and sell bond anticipation notes, and the power to prescribe the details, form and content of, and to sell, serial bonds authorized by the Common Council.

Additional information on the City's long-term debt can be found in Note 3 of the notes to the financial statements.

Economic Factors and Next Year's Budgets and Rates

The following economic factors currently affect the City and were considered in developing the annual budget for the forthcoming fiscal year ending June 30, 2015:

- It is important to preserve the City's Aa1 credit rating.
- The City must continue to budget estimated revenues and appropriations in a conservative manner and adhere to the City's adopted fiscal performance goals.
- The economic recession has abated somewhat, but recovery will be slow and incremental.
- All fees and charges must be reviewed and set to appropriate levels.
- The tax stabilization account will continue to benefit future budgets.
- The City's real property tax base has stabilized after four continuous years of decline.
- Fluctuations in housing prices and sales will continue to impact mortgage tax revenues.
- Salaries and benefits costs will continue to increase.
- Interest rates are expected to remain at historically low levels, presenting both a challenge and an opportunity in terms of interest earnings and debt management.
- Tax certiorari will remain at current levels and the City will not issue debt to finance tax certiorari settled or adjudged.
- The City will continue to manage its risk through self-insurance.

- A reserve for financing (contingent account) not to exceed 1% of the operating budget will continue to be provided in accordance with the City's fiscal performance goals.
- Departmental budgets must be reduced to adjust for the decline in major revenues and the current and foreseeable state of the economy.
- The budget will adhere to the requirements of the Property Tax Levy Limit ("Tax Cap") law enacted in 2011.
- Fund balance will be appropriated to minimize the impact of a property tax increase.

Requests for Information

This comprehensive annual financial report is designed to provide a general overview of the City's finances for all those who are interested. Questions concerning any of the information provided in this report, or requests for additional information, should be addressed to Michael A. Genito, Commissioner of Finance, City of White Plains, 255 Main Street, Room 102, White Plains, New York 10601, or by e-mail to mgenito@whiteplainsny.gov.

**CITY OF WHITE PLAINS, NEW YORK
RECONCILIATION OF THE BALANCE SHEET OF GOVERNMENTAL FUNDS
TO THE STATEMENT OF NET POSITION
JUNE 30, 2014**

Amounts reported for governmental activities in the statement of net position are different because:

Total Fund Balances - Governmental Funds	\$ 43,542,007
Capital assets used in governmental activities are not financial resources and therefore, are not reported in the funds.	272,777,534
The internal service fund is used by management to charge the cost of workers' compensation, general liability and unemployment benefits to individual funds. The assets and liabilities of the internal service fund are included in governmental activities in the statement of net position.	(4,678,307)
Other long-term assets that are not available to pay for current period expenditures and, therefore, are either unearned or not reported in the funds.	
Real property taxes	459,711
Accrued property tax interest receivable	378,516
Long-term liabilities that are not due and payable in the current period, and therefore, are not reported in the funds:	
Bonds payable	(124,137,250)
Uamortized premium on refunding bonds	(1,718,670)
Deferred loss on refunding bonds	893,496
Tax certiorari payable	(6,518,023)
Compensated absences	(4,717,540)
Accrued interest payable	(921,453)
Post closure costs	(1,285,000)
Other post employment benefit obligations payable	(95,420,000)
Net Position of Governmental Activities	<u>\$ 78,655,021</u>

CITY OF WHITE PLAINS, NEW YORK
RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES AND CHANGES IN
FUND BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES
FOR THE FISCAL YEAR ENDED JUNE 30, 2014

Amounts reported for governmental activities in the statement of activities are different because:

Net Change in Fund Balances - Total Governmental Funds	<u>\$ 10,224,259</u>
<p>Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of these assets is allocated over their estimated useful lives and reported as depreciation expense. This amount may be less than the total capital outlay since capital outlay includes amounts that are under the capitalization threshold. This is the amount by which capital outlays exceeded depreciation expense in the current period.</p>	
Capital outlay expenditures	24,558,742
Depreciation expense	<u>(13,691,054)</u>
	<u>10,867,688</u>
<p>Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds.</p>	
Real property taxes	<u>(42,428)</u>
<p>Bond proceeds provide current financial resources to governmental funds, but issuing debt increases long-term liabilities in the statement of net position. Repayment of bond principal is an expenditure in the governmental funds, but repayment reduces long-term liabilities in the statement of net position. Also, governmental funds report the effect of premiums, discounts, and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities.</p>	
Principal paid on bonds	6,528,502
Amortization of loss on refunding and premium	110,352
Bonds issued	<u>(32,856,600)</u>
	<u>(26,217,746)</u>
<p>The Self-Insurance Fund is an internal service fund used by management to charge the costs of workers' compensation, general liability and unemployment benefits to the individual funds. The net revenue of this fund is reported with governmental activities.</p>	
	<u>(2,009,096)</u>
<p>Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in the governmental funds.</p>	
Accrued interest	(191,044)
Retirement incentives and other pension obligations	1,782,665
Compensated absences	62,398
Post closure costs	(1,285,000)
Other post employment benefit obligations	(23,414,000)
Tax certiorari	1,197,977
	<u>(21,847,004)</u>
Change in Net Position of Governmental Activities	<u>\$ (29,024,327)</u>

Accrued liabilities	705,855
Deposits	1,464,941
Due to other governments	<u>8,134</u>
Total Liabilities	<u><u>\$ 2,205,078</u></u>

Note 1: Summary of Significant Accounting Policies

The City of White Plains, New York (City) was incorporated in 1916 and covers an area of approximately 10 square miles. The City has been the seat of the Westchester County government since 1778. The City operates in accordance with its Charter under an elected Mayor and Common Council. The six members of the Council are elected at large and serve for four year terms, as does the Mayor. The Common Council functions as the policy-making and legislative body of the City and the Mayor serves as the Chief Executive Officer. The City provides services to its 57,866 (source: U.S. Census Bureau Annual Estimates of the Resident Population, April 1, 2010 to July 1, 2013, released December 2013) residents in many areas, including various general government services, public works, parking, public safety and community services.

The accounting policies of the City conform to generally accepted accounting principles as applicable to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard setting body for establishing governmental accounting and financial reporting principles. The more significant of the City's accounting policies are described below.

A. Reporting Entity

These financial statements present the primary government and its component units following the principles of GASB Statement No. 14, *The Financial Reporting Entity*, as amended by Statement No. 61, *The Financial Reporting Entity: Omnibus – an amendment of GASB Statements No. 14 and No. 34*. Component units are legally separate organizations for which the elected officials of the primary government are financially accountable. In addition, component units can be other organizations for which the nature and significance of their relationship with a primary government are such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete.

While it is desirable for users to be able to distinguish between the primary government and its component units, there are nevertheless some component units that, despite being legally separate from the primary government, are so intertwined with the primary government that they are, in substance, the same as the primary government. These component units are reported as part of the primary government and are known as blended component units. The City does not report any blended component units.

Most component units are discretely presented, meaning that financial data for the component unit(s) is presented in one or more column(s) separate from the financial data of the primary government. The City's discretely presented component units include the White Plains Urban Renewal Agency (Urban Renewal Agency), the White Plains Cable Television Access Commission (Cable TV Commission), the White Plains Center Local Development Corporation (Local Development Corporation) and the White Plains Housing Development Corporation (Housing Development Corporation). The governing bodies of these component units are not substantively the same as the City's and they do not provide services entirely or almost entirely to the City as described below. None of the component units issue a separate financial report.

The Urban Renewal Agency was created in 1964 pursuant to an act of the New York State Legislature, General Municipal Law, Article 15-B, Title 14, which provided for the following:

1. The purpose of the Urban Renewal Agency is to eliminate or prevent the development and spread of deterioration and blight through the clearance, re-planning, reconstruction, rehabilitation, conservation or renewal of areas designated for residential, commercial, industrial, community, public and other uses.
2. The Urban Renewal Agency shall be perpetual in duration and shall consist of five Agency

members who are appointed and serve at the pleasure of the Mayor. The Mayor may also appoint himself/herself as one of the members and is currently serving as Chairman. The City provides support to the Urban Renewal Agency in the form of office space.

The Cable TV Commission was established in 1981 as a Type A not-for-profit corporation under Section 402 of the Not-for-Profit Corporation Law and Section 501(c)(1) of the IRS Code, to implement the provisions of franchise agreements between the City and cable television providers. The Cable TV Commission oversees the operations of the City's cable television production facilities, which include a fully equipped studio, editing suite, and a full complement of location equipment. Productions are televised on the Community Access Channel. The Cable TV Commission also manages the City's Government Access Channel, which televises the City government programs, announcements and Common Council meetings. The Cable TV Commission is reported as a discretely presented component unit because the Mayor appoints its governing body and can remove its members at will. The City guarantees debt obligations of the Commission. At June 30, 2014, there was no debt authorized or outstanding for the Cable TV Commission.

The Local Development Corporation is a not-for-profit local development corporation established pursuant to Section 1411 of the Not-for-Profit Corporation Law of the State of New York. The Local Development Corporation was formed and operated exclusively for charitable purposes within the meaning of Section 501(c)(3) of the Internal Revenue Code to lessen the burdens of City government by engaging in the following transactions:

1. Contract with the City for the demolition of an existing garage;
2. Contract with a developer for the construction of the White Plains Center Parking Garage (City Center Garage);
3. To provide for future reconstruction and additions to the City Center Garage;
4. Enter into various leases and subleases with the City regarding the City Center Garage;
5. Contract with the City for the operation and maintenance of the City Center Garage.

The Local Development Corporation is a discretely presented component unit because the Board of Directors consists of the Mayor, the Commissioner of Building and the Commissioner of Public Works and is fiscally dependent on the City. The Local Development Corporation is a public instrumentality separate from the City. The Corporation has no reportable operations, assets or liabilities as of and for the fiscal year ended June 30, 2014.

The White Plains Housing Development Corporation is a discretely presented component unit because the officers of the Corporation are appointed officials of the City serving ex officio, who can be removed by a majority vote of the Common Council. The Corporation is a not-for-profit corporation that was created in 1994, under the laws of the State of New York for the purpose of:

1. Functioning as an instrumentality for the City, a political subdivision of the State, and a Public Housing Agency under the United States Housing Act of 1937 and defined in regulations issued by the United States Department of Housing and Urban Development.
2. Engaging or assisting in the acquisition of land and construction and equipping of rental apartment facilities located in the City for, but not limited to elderly, handicapped, and low-income individuals and families.
3. Issuing Housing Revenue Bonds for the defeasance or refunding of the outstanding revenue bonds of the White Plains Battle Hill Housing Corporation and the White Plains Armory Plaza Housing Development Corporation.

The only financial transactions of the Corporation are conduit debt transactions, which are not recorded as liabilities of the Corporation. As such, the Corporation has no reportable operations, assets or liabilities as of and for the fiscal year ended June 30, 2014.

B. Government-Wide Financial Statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the non-fiduciary activities of the primary government as a whole and its component units. For the most part, the effect of interfund activity has been removed from these statements, except for interfund services provided and used. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for services. Likewise, the primary government is reported separately from certain legally separate component units for which the primary government is financially accountable.

The statement of net position presents the financial position of the City and its component units at the end of the fiscal year. The statement of activities demonstrates the degree to which the direct expenses of a given function or segment is offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include: 1) charges to customers or applicants who purchase, use or directly benefit from goods, services or privileges provided by a given function or segment, 2) grants and contributions that are restricted to meet the operational or capital requirements of a particular function or segment and 3) interest earned on grants that is required to be used to support a particular program. Taxes and other items not identified as program revenues are reported as general revenues. The City does not allocate indirect expenses to specific functions in the statement of activities.

Separate financial statements are provided for governmental funds, proprietary funds and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental and enterprise funds are reported as separate columns in the fund financial statements.

Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues generally result from providing and delivering services and/or goods in connection with the proprietary fund's principal ongoing operations. Operating expenses include the cost of personnel (salaries and benefits), materials and supplies, direct costs, equipment and depreciation of capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues (such as interest income) and expenses (such as interest expense).

C. Fund Financial Statements

The accounts of the City are organized and operated on a fund basis. A fund is defined as a fiscal and accounting entity with a self-balancing set of accounts comprised of its assets, deferred outflows of resources, liabilities, deferred inflows of resources, fund balances/net position, revenues and expenditures/expenses. Fund accounting segregates funds according to their intended purpose and is used to aid management in demonstrating compliance with finance-related legal and contractual provisions. The City maintains the minimum number of funds consistent with legal and managerial requirements. The focus of the governmental funds financial statements is on major funds as that term is defined in professional pronouncements. Each major fund is presented in a separate column, with nonmajor funds aggregated and presented in a single column. Proprietary and fiduciary funds are reported by type. A reconciliation is presented on the page following the governmental funds statements that briefly explains the adjustments necessary to convert the fund-based financial statements into the governmental activities column of the government-wide presentation, due to the fact that governmental funds statements are presented on a different

measurement focus and basis of accounting than the government-wide statements' governmental activities column. The City's resources are reflected in the fund financial statements in three broad fund categories, in accordance with generally accepted accounting principles as follows:

1. Governmental Funds - Governmental Funds are those through which most general government functions are financed. The acquisition, use and balances of expendable financial resources and the related liabilities are accounted for through governmental funds. Following are the City's major governmental funds:

General Fund - The General Fund is the primary operating fund of the City and is used to account for and report all financial resources not accounted for and reported in another fund.

Capital Projects Fund - The Capital Projects Fund is used to account for and report financial resources that are restricted, committed, or assigned to expenditure for capital outlays, including the acquisition or construction of capital facilities and other capital assets. The Capital Projects Fund excludes those types of capital-related outflows financed by proprietary funds or for assets that will be held in trust for individuals, private organizations, or other governments.

The City reports the following nonmajor governmental funds:

Special Revenue Funds - Special revenue funds are used to account for and report the proceeds of specific revenue sources that are restricted or committed to expenditure for specified purposes other than debt service or capital projects. The City's special revenue funds include:

Library Fund - to account for property taxes and other resources used to support the operation and maintenance of the City library. Section 259(1) of the New York State Education Law requires that monies received from taxes and other public sources for the support of a public library shall be kept as a separate library fund.

RESTORE Grant Fund - to account for a New York State grant that provides assistance to low income senior citizens for housing repairs.

Community Development Block Grant Fund - to account for Federal Community Development Block Grant (CDBG) funds used to provide programs and activities that will benefit low and moderate income families through the prevention or elimination of slums and blight.

Section 8 Housing Assistance Program Fund - to account for Federal grants used to subsidize rental housing for low and moderate income senior citizens and other families within the City. As of July 1, 2013 the City transferred the Section 8 program to the White Plains Housing Authority.

Public Safety Grant Fund - to account for grant monies received from Federal, State and local governments for the enhancement of public safety activities.

Youth Development Fund - to account for grant monies received from Federal, State and local governments and private contributions for youth development programs designed to build skills and competencies among the City's youth.

City Center Garage Fund - to account for parking revenues that are restricted for operating and maintenance costs associated with the City Center Garage.

War Memorial Fund - to account for funds specifically identified by the donors to be used for a memorial to those who have perished in wars.

Community Services Fund - to account for funds specifically identified by the donors to be used to send underprivileged and economically disadvantaged children to day camp.

Recreation Parkland Fund - to account for funds specifically identified by the donors to be used in acquiring and/or developing recreational facilities and open space in the City.

Police Activities Fund - to account for Federal forfeiture proceeds to be used to support community policing activities, training and law enforcement operations.

Mayor's Youth Council Fund - to account for monies specifically identified by the donors to benefit the youth of the City.

Housing Authority Enhancement Fund - to account for monies specifically identified by the donors to be used to enhance public housing occupancy.

Parking Fund - to account for fees received in lieu of providing required off-street parking in the central parking area, which are used to increase the quantity/quality of parking spaces available to serve properties in that area.

Debt Service Fund – The Debt Service Fund is used to account for and report financial resources that are restricted, committed, or assigned to expenditure for principal and interest and for financial resources that are being accumulated for principal and interest maturing in future years.

Permanent Fund - The Goldie Zeitlin Memorial Fund is a permanent fund of the City, used to account for and report resources that are restricted to the extent that only earnings, and not the principal of a \$10,000 endowment, may be used to support the City's programs related to urban concerns.

2. Proprietary Funds - Proprietary fund reporting focuses on the determination of operating income, changes in net position (or cost recovery), financial position and cash flows. The proprietary fund category includes enterprise funds and internal service funds. Enterprise funds may be used to report any activity for which a fee is charged, predominantly to external users, for goods or services. Internal service funds may be used to report any activity that provides goods or services to other funds, departments, or agencies of the primary government and its component units, or to other governments, on a cost-reimbursement basis. Internal service funds should be used only if the reporting government is the predominant participant in the activity. The City reports the operations of its Water Fund and its Sewer Rent Fund as enterprise funds and has established its Self Insurance Fund as an internal service fund.

3. Fiduciary Funds - Fiduciary funds are used to report assets held in a trustee or agency capacity for others and therefore cannot be used to support the government's own programs. Fiduciary funds are not included in the government-wide financial statements on the basis that the City cannot use the resources of fiduciary activities to support City programs. The City's only fiduciary fund is the Agency Fund, which is primarily used to account for employee payroll tax withholdings and various deposits that are payable to other jurisdictions or individuals.

D. Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The accounting and financial reporting treatment is determined by the applicable measurement focus and basis of accounting. Measurement focus indicates the type of resources being measured such as current financial resources (current assets and current liabilities) or economic resources (all assets and liabilities). The basis of accounting indicates the timing of transactions or events for recognition in the financial statements.

The government-wide, proprietary funds and component unit financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. The Agency Fund has no measurement focus but utilizes the accrual basis of accounting. Under the accrual basis of accounting, revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under the modified accrual basis of accounting, revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences, claims and judgments, landfill post-closure costs and other post-employment benefit obligations are recorded only when payment is due. General capital asset acquisitions are reported as expenditures in governmental funds. Issuance of long-term debt and acquisitions under capital leases are reported as other financing sources. Property taxes, franchise taxes, licenses and interest associated with the current fiscal period are all considered to be susceptible to accrual and have been recognized as revenues of the current fiscal period. Other receipts become measurable and available when cash is received by the City and are recognized as revenue at that time. Entitlements are recorded at the time of receipt or earlier if the susceptible-to-accrual criteria are met. Expenditure driven grants are recognized as revenue when the qualifying expenditures have been incurred and all other grant requirements have been met.

E. Assets, Liabilities and Net Position or Fund Balances

1. Deposits and Investments

The City's cash and cash equivalents balances consist of funds deposited in demand deposit accounts, time deposit accounts, certificates of deposit with original maturities of less than three months and petty cash and change funds. State statutes govern the City's investment policies. The City has adopted its own written investment policy which provides for the deposit of funds in FDIC insured commercial banks or trust companies licensed to do business in New York State. Permissible investments include obligations of the U.S. Treasury, U.S. Agencies, repurchase agreements, obligations of New York State or its political subdivisions and municipal joint cooperative investments authorized under New York State General Municipal Law.

Custodial credit risk is the risk that in the event of a bank failure, the City's deposits may not be returned to it. GASB Statement No. 40, *Deposit and Investment Risk Disclosures*, directs that deposits be disclosed as exposed to custodial credit risk if they are not covered by FDIC insurance and the deposits are either uncollateralized, collateralized by securities held by the pledging financial institution or collateralized by securities held by the pledging financial institution's trust department but not in the City's name. The City's aggregate bank balances that were not covered

by FDIC insurance were not exposed to custodial credit risk at June 30, 2014.

In order to minimize the credit risk of deposits and investments, the City adopted and adheres to the guidelines established in its investment policy. This policy specifically states the primary objectives of the City's investment activities. In priority order, they are: to conform to all applicable laws; to adequately safeguard principal; to provide sufficient liquidity to meet all operating requirements and lastly, to obtain a reasonable rate of return. It is also the policy of the City to diversify its deposits and investments by financial institution, by investment instrument and by maturity. These objectives, as outlined in the City's investment policy, along with collateralization of all deposits in excess of FDIC coverage, are strictly adhered to so as to minimize exposure to credit risk. In accordance with the investment policy, collateral is required for demand deposit accounts, time deposit accounts and certificates of deposit at 100% of all deposits not covered by FDIC insurance. The City has entered into custodial agreements with the various banks that hold their deposits. These agreements authorize the obligations that may be pledged as collateral, which include, among other instruments, obligations of the United States and its agencies, and obligations of the State and its municipal and school district political subdivisions.

The City was invested in demand deposit accounts, time deposit accounts and certificates of deposit and, accordingly, was not exposed to any interest rate risk or credit risk at June 30, 2014.

In addition to the above named investments the City was also invested in two United States Treasury Bonds. These two securities can pose a potential interest rate risk, since the fixed rate of interest is locked in for an extended period of time. Management monitors these securities periodically to determine if the fixed interest rate poses any risk to the City. At this time, the potential risk is extremely limited given the current market interest rates and the \$215,000 principal involved.

The segmented time distribution of all maturities is as follows:

a. Maturities within six months to three years:

<u>Description</u>	<u>Amount</u>	<u>Rate</u>	<u>Maturity</u>
United States Treasury Bond	\$100,000	8.75%	5/15/2017

b. Maturities over three years:

<u>Description</u>	<u>Amount</u>	<u>Rate</u>	<u>Maturity</u>
United States Treasury Bond	\$115,000	6.00%	2/15/2026

The City utilizes a pooled investment concept for all its funds to maximize its investment returns. Investment income from this pooling is allocated to the respective funds based upon the sources of funds invested.

The City participates in a joint municipal cooperative investment pool established pursuant to New York State General Municipal Law Article 3-A that meets the definition of a 2a7-like pool as defined by GASB Statement No. 31, *Accounting and Financial Reporting for Certain Investments and for External Investment Pools*. The sponsoring agency of the pool is another governmental unit which, acting through its chief fiscal officer, is primarily responsible for executing the provisions of the cooperative agreement. This pool is authorized to invest in various securities issued by the United States and its agencies. The amount reported represents the amortized cost of the cooperative shares and is considered to approximate fair value. The fair value of the City's position in the cooperative is the same as the value of the pool's shares. Additional information concerning the cooperative investment pool is presented in the annual report of the New York Liquid Asset Fund (NYLAF), which may be obtained from Bankers Trust Company, N.A., 453 7th Street, P.O. Box 897, Des Moines, IA 50304.

NYLAF is rated AAAM by Standard & Poor's. Local government investment cooperatives in this rating category meet the highest standards for credit quality, conservative investment policies and safety of principal. The cooperative invests in a high quality portfolio of investments legally permissible for municipalities and school districts pursuant to New York State General Municipal Law.

2. Receivables

Real property taxes attach as an enforceable lien on real property and are levied as of January 1st for Westchester County taxes and July 1st for the City of White Plains and the White Plains City School District taxes. The City collects County taxes, which are due in one installment on April 1st and are payable without penalty through April 30th. The City also collects City and School District taxes, which are due in two installments (in July and January) and are payable without penalty until the end of each respective month.

In accordance with Westchester County Tax Law (Section 283 of the Westchester County Administrative Code), the City functions in both a fiduciary and guarantor relationship with the County of Westchester and the White Plains City School District with respect to the collection and payment of real property taxes levied by such jurisdictions. The City must remit to the County 60% of the amount levied by May 25th and the balance of 40% on or before October 15th. With respect to School District taxes, the City must satisfy the warrant no later than February 20th of the second year after the fiscal year for which such taxes were levied. Thus, the City's fiduciary responsibility for School District taxes is from the date of the levy until two years after said date, at which time the City must satisfy its obligation to the School District regardless of the amounts collected. The collection of School District taxes is deemed a financing transaction until the warrants are satisfied. Since the County tax warrant must be paid in full by October 15th, uncollected County taxes have been accounted for in a manner similar to City taxes.

The combined tax rate to finance City general governmental services and the payment of principal and interest on long-term debt for the fiscal year ended June 30, 2014, was \$191.74 per \$1,000 of taxable assessed value. Other receivables include amounts due from other governments and individuals for services provided by the City. Receivables are recorded and revenues are recognized as earned or as specific program expenses/expenditures are incurred. Allowances are recorded when appropriate.

3. Due From/To Other Funds

During the course of its operations, the City had numerous transactions between funds to finance operations, provide services and construct assets. Balances of interfund amounts receivable or payable have been recorded in the fund financial statements to the extent that certain transactions between funds had not been paid or received as of June 30, 2014. Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as internal balances.

4. Inventory and Prepaid Items

Inventories are valued at cost using the first-in/first-out (FIFO) method and consist of expendable supplies and vehicle repair parts, and are reported in both the government-wide and fund financial statements. The cost of such inventories is recorded as expenditures when consumed rather than when purchased (the consumption method). Certain payments to vendors reflect costs applicable to future accounting periods and are reported as prepaid items using the consumption method in both the government-wide and fund financial statements.

Amounts reported as inventories and prepaid items in the fund financial statements are offset by the

same amount in the component of nonspendable fund balance - not in spendable form to indicate that these amounts do not constitute available spendable resources, even though they are a component of current assets.

5. Capital Assets

Capital assets include property, plant, equipment and infrastructure (e.g. roads, bridges, sidewalks, and similar items) assets, and are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. A capital asset is defined by the City as an asset with an initial, individual cost of more than \$10,000 and an estimated useful life in excess of three years. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation.

In the case of the initial capitalization of general infrastructure assets (those reported by governmental activities), the City chose to include all such items regardless of their acquisition date or amount. The City was able to estimate the historical cost for the initial reporting of these assets by estimating the current replacement cost of the infrastructure to be capitalized and using an appropriate price-level index to deflate the cost to the acquisition year.

Major outlays for capital assets and improvements are capitalized as projects are completed. The costs of normal maintenance and repairs that do not materially add to the value or useful life of the asset are not capitalized. Land and construction-in-progress are not depreciated.

Property, plant, equipment and infrastructure of the primary government and the component units are depreciated using the straight line method over the following estimated useful lives.

<u>Class</u>	<u>Life in Years</u>
Building and Facilities	10 - 50
Machinery and Equipment	10 -20
Rolling Stock	3 -15
Infrastructure	75 -100

The costs associated with the acquisition or construction of capital assets are shown as capital outlay expenditures on the governmental funds financial statements. Capital assets are not shown on the governmental funds balance sheet.

6. Deferred Outflows of Resources

In accordance with GASB Statement No. 63, *Financial Reporting of Deferred Outflows of Resources, Deferred Inflows of Resources, and Net Position* and GASB Statement No. 65, *Items Previously Reported as Assets and Liabilities*, a deferred outflow of resources is a consumption of net position by the government that is applicable to a future reporting period. The City reported \$1,010,252 of deferred outflows of resources as deferred charges on refunding bonds in the government-wide statement of net position at June 30, 2014, representing the financial effect of a deferred charge on the advance refunding of general obligation serial bonds. A deferred outflow of resources (deferred charge) results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt.

7. Deferred Inflows of Resources/Unearned Revenues

GASB Statement No. 63, *Financial Reporting of Deferred Outflows of Resources, Deferred Inflows of Resources, and Net Position* and GASB Statement No. 65, *Items Previously Reported as Assets*

and Liabilities require the removal from liabilities and separate presentation of deferred inflows of resources in the statement of net position. A deferred inflow of resources is an acquisition of net position by the government that is applicable to a future reporting period. At June 30, 2014 the City reported deferred inflows of \$606,037 on the governmental funds balance sheet, with \$459,711 of this amount reported as real property taxes levied but uncollected in the current and prior years, and \$146,326 as real property taxes received in advance of the lien date.

Unearned revenues arise when assets are recognized before revenue recognition criteria have been satisfied. In the government-wide financial statements, unearned revenues consist of revenue received in advance and/or amounts from grants received before the eligibility requirements have been met. Unearned revenues in the fund financial statements are those where asset recognition criteria have been met, but for which revenue recognition criteria have not been met. The City has reported \$3,766,615 of unearned revenues at June 30, 2014 in the governmental fund financial statements. Of this amount, \$2,168,189 is found in the General Fund for parking permits (\$1,610,572), prepaid rents (\$71,421) and miscellaneous fees (\$486,196) received in advance. The remaining balance of unearned revenues represents \$293,800 in the City Center Garage Fund for parking permit fees received in advance; \$1,268,651 in the Community Development Fund representing uncollected loans to qualified homeowners for home improvements funded through Community Development Block Grant programs; \$11,787 in the Youth Development Fund for donations received in advance of various programs to be undertaken, and \$24,188 in the Public Safety Grant Fund. Such amounts have been deemed to be measurable but not available pursuant to generally accepted accounting principles.

8. Long-Term Obligations

Long-term debt and other long-term obligations are reported as liabilities in the government-wide and the proprietary fund type statement of net position. Bond premiums, discounts and any prepaid bond insurance costs are deferred and amortized over the life of the bonds using the straight line method, while bond issuance costs are recognized as an expense in the period incurred. Bonds payable are reported net of the applicable bond premium or discount in accordance with GASB Statement No. 65, *Items Previously Reported as Assets and Liabilities*.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued and any premiums received are reported as other financing sources. Issuance discounts are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as Capital Projects Fund expenditures.

9. Compensated Absences

Vacation

The City's leave policy permits employees to accumulate limited earned but unused vacation benefits, which are eligible for payment upon separation from City service. The liability for such leave is reported in the government-wide and the proprietary fund financial statements as current and long-term liabilities. A liability for those amounts is recorded in the governmental funds only if the liability has matured through employee resignation or retirement. The liability for compensated absences includes salary-related benefits, where applicable.

Sick Leave

An employee's accumulated sick leave lapses upon separation from City service with no further obligation, financial or otherwise, on the part of the City.

10. Net Position

Net position is an element of the statement of net position and is measured by the difference between (a) assets and deferred outflows of resources and (b) liabilities and deferred inflows of resources. Net position is reported as restricted when constraints placed on net position use are either (a) externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments, or (b) imposed by law through constitutional provisions or enabling legislation.

Net position on the government-wide and proprietary funds statement of net position falls within three categories: 1) net investment in capital assets, 2) restricted and 3) unrestricted (the remaining balance).

11. Fund Balances

In fiscal 2010, the City early implemented GASB Statement No. 54, *Fund Balance Reporting and Governmental Fund Type Definitions*. GASB Statement No. 54 changed the terminology and classification of fund balance to reflect spending constraints on resources, rather than availability for appropriation. This approach is intended to provide users more consistent and understandable information about a fund's net resources.

Under GASB Statement No. 54, fund balance is classified as either nonspendable or spendable. Nonspendable fund balance represents amounts that cannot be spent due to form (such as inventories and prepaid amounts), or amounts that must be maintained intact legally or contractually (such as the principal portion of a permanent fund).

Spendable fund balance is further classified as 1) restricted, 2) committed, 3) assigned, and/or 4) unassigned. The restricted fund balance category includes amounts that can be spent only for specific purposes stipulated by constitution, external resource providers, or through enabling legislation.

The committed fund balance classification includes amounts that can be used only for the specific purposes determined by a formal action of the government's highest level of decision-making authority. The Common Council is the highest level of decision-making authority that can, by adoption of an ordinance prior to the end of the fiscal year, commit fund balance.

Amounts in the assigned fund balance classification are intended to be used by the government for specific purposes that do not meet the criteria to be classified as restricted or committed. In governmental funds other than the General Fund, assigned fund balance represents the remaining amount that is not restricted or committed. By resolution dated May 3, 2010, the Common Council amended the City's Reserve Performance Goals to comply with GASB Statement No. 54, authorizing the Commissioner of Finance to assign fund balance. The Common Council may also assign fund balance as it does when appropriating fund balance for subsequent year's expenditures with the adoption of the annual budget.

Unassigned fund balance is the residual classification for the government's General Fund and includes all spendable amounts not contained in the other classifications. For all governmental funds other than the General Fund, any unassigned fund balance would necessarily be negative, since the fund's liabilities and deferred inflows of resources, together with the amounts already classified as nonspendable, restricted and committed would exceed the fund's assets and deferred outflows of resources.

The City's Reserve Performance Goals, adopted as part of the 2013-2014 budget by the Common Council on May 30, 2013, provide that unless otherwise required by law or agreement, funds will be

spent in the following order: restricted first, then committed, then assigned and lastly, unassigned.

The City's Reserve Performance Goals require that the General Fund's combined total of fund balance restricted for tax stabilization, plus fund balance restricted for subsequent year's expenditures, plus fund balance assigned for subsequent year's expenditures, plus unassigned fund balance shall be maintained at a minimum of fifteen percent (15%) of General Fund total expenditures, excluding the amount provided for in the Reserve for Financing account. Should the combined amounts of these fund balance components fall below the 15% target, fund balance would be replenished as soon as possible, but no later than five years from the date that the deficiency was determined.

12. Stabilization Arrangement

By ordinance adopted May 10, 2010 and in accordance with Section 6-e of New York State General Municipal Law, the City established and maintains a contingency and tax stabilization reserve fund (rainy day fund). The principal resource for this fund is a one-quarter of one percent (0.25%) tax on gross taxable retail sales (sales tax). Other resources include interest earned or capital gains realized on deposits or investments, and other resources as the Common Council might authorize by adopted resolution or ordinance. As provided in General Municipal Law, amounts may be withdrawn from the fund upon recommendation of the Mayor and by at least two-thirds of the voting strength of the Common Council:

- To finance unanticipated revenue loss chargeable to the eligible portion of the annual budget, provided that the maximum amount that may be used to finance such unanticipated revenue loss shall equal either the amount of the revenue actually received for the base year or the amount of the estimated revenue for the current fiscal year, whichever is less, minus the amount of the revenue actually received for the current fiscal year, and only to finance that portion of the unanticipated revenue loss which, as a matter of law, cannot be financed with amounts available in any other account or fund, and/or,
- To finance an unanticipated expenditure chargeable to the eligible portion of the annual budget, provided that the maximum amount that may be used to finance an unanticipated expenditure shall equal the sum of the amount of the unanticipated expenditure and the amount appropriated for that purpose for the current fiscal year minus either the amount appropriated for that purpose for the current fiscal year or the actual expenditure for the same purpose in the base year, whichever is greater, and only to finance that portion of an unanticipated expenditure which, as a matter of law, cannot be financed with amounts available in any other account or fund, and/or,
- To lessen or prevent any projected increase in excess of 2.5% in the amount of the real property tax levy needed to finance the eligible portion of the annual budget for the next succeeding fiscal year. The maximum amount that may be used for this purpose shall equal the difference between the projected amount of such real property tax levy and 102.5% of the amount of the real property tax levy needed to finance the eligible portion of the annual budget for the current fiscal year.

When preparing the annual budget, if the current balance of the contingency and tax stabilization reserve fund exceeds 10% of the eligible portion of the annual budget for the current fiscal year, such excess shall be used to reduce the amount of real property taxes needed to finance the eligible portion of the annual budget for the next succeeding fiscal year.

Not later than 60 days after the start of each fiscal year (not later than August 29) and at such times as may be required by the Common Council, the Commissioner of Finance will transmit to the Common Council a detailed report of the operation and condition of the fund during the preceding

fiscal year that includes a statement of receipts and disbursements and a statement of the balance of the fund as of the last day of the preceding fiscal year. Not later than 30 days prior to the last date provided by law for the filing of the proposed budget (30 days prior to the stated meeting of the Common Council in April), the Finance Commissioner will transmit to the Budget Director a statement of the current balance of the fund.

The City accounts for the contingency and tax stabilization reserve fund as restricted fund balance in the General Fund. The balance in the fund at June 30, 2014 was \$5,256,103.

13. Encumbrances

In governmental funds, encumbrance accounting under which purchase orders, contracts and other commitments for the expenditure of monies are recorded is generally employed as an extension of formal budgetary integration, and encumbrances outstanding at fiscal year end in the General Fund, Library Fund and Capital Projects Fund are reported as a restriction, commitment, or assignment of fund balance.

14. Estimates and Assumptions

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements.

Estimates also affect the reported amounts of revenues and expenditures/expenses during the reporting period. Actual amounts could differ from those estimates.

15. Subsequent Events Evaluation by Management

Management has evaluated subsequent events for disclosure and/or recognition in the financial statements through the date that the financial statements were available to be issued, which date is November 19, 2014.

Note 2: Stewardship, Compliance and Accountability

A. Budgetary Information

The procedures for establishing the budgetary data reflected in the financial statements are as follows:

1. Formal annual operating budgets are adopted by the Common Council for the General Fund, Library Fund, Water Fund, Sewer Rent Fund, Debt Service Fund and Self Insurance Fund. General Fund, Library Fund and Debt Service Fund budgets are prepared on a basis consistent with generally accepted accounting principles (GAAP) and serve as management control devices during the fiscal year. The Capital Projects Fund is budgeted on a project basis with Common Council approval. Other special revenue funds and the permanent fund do not have annual budgets, since grant awards and revenues received under other contractual requirements recorded in these funds span more than a single fiscal year.

2. Prior to January 15th of each year, the Budget Director furnishes to the heads of departments, offices and other spending agencies, instructions for the submission of budget estimates for the General Fund, Library Fund, Water Fund, Sewer Rent Fund, Debt Service Fund and Self Insurance Fund.

3. Not later than February 15th, estimates of the expenditure requirements and projected revenues for the new budget year are submitted to the Budget Director. Immediately thereafter, the Budget Director conducts departmental budget hearings to review said estimates, after which he/she may revise the estimates based upon the needs of the various spending agencies and the probable total revenue available to the City.
4. The Budget Director presents the proposed budgets to the Mayor and the members of the Common Council at the first stated meeting of the Common Council in April. Immediately thereafter, the Common Council commences consideration and review of the proposed budgets.
5. Public sessions are held by the Common Council during the months of April and May on the proposed budgets.
6. The budgets are legally enacted through adoption of ordinances by the Common Council on or before May 30th. The budgets are not subject to referendum.
7. The Commissioner of Finance may not disburse funds unless appropriated and may not disburse funds in excess of such appropriations. With the exception of personal services and related employee benefits, department heads are authorized, in all funds, to transfer budgeted amounts up to \$5,000 between major objects of expenditure within their department, which is the legal level of budgetary control, with the approval of the Budget Director. Transfers in excess of \$5,000 between major objects of expenditures within a department, transfers of personal services and related employee benefits, transfers between departments and any revisions that alter the total expenditures of any fund must be approved by the Common Council.
8. Appropriations in all budgeted funds lapse at the end of the fiscal year, except that outstanding encumbrances are re-appropriated in the subsequent year pursuant to the Uniform System of Accounts promulgated by the Office of the State Comptroller.

B. Constitutional Tax Levy Limitation

The amount that may be raised by the City for real property taxes in any fiscal year, for purposes other than for debt service on City indebtedness, is limited by the Constitution of the State of New York to 2% of the five-year average full valuation of taxable real property located within the City. For the fiscal year 2013-2014, the maximum tax amount that could have been raised was \$179,641,197, which exceeded the levy by \$138,401,187.

C. Real Property Tax Cap

On June 24, 2011, Governor Andrew Cuomo signed Chapter 97 of the Laws of 2011 (Tax Cap Law). This law applies to all local governments in New York State. The Tax Cap Law restricts the amount of real property taxes that may be levied by the City in a particular year, beginning with the 2012-2013 fiscal year and expiring on June 16, 2016.

The growth in the annual levy is limited to the lesser of two percent or the annual change in the national unadjusted Consumer Price Index for All Urban Consumers – All Items (CPI-U), subject to certain limited exceptions and adjustments.

Exclusions are limited to 1) costs resulting from court orders or judgments against the local government arising out of tort actions to be paid in the coming fiscal year that exceed five percent of the total prior year's tax levy, and 2) the portion, if any, of employer pension costs that exceed the annual growth in the average actuarial contribution rate for the Employees' Retirement System (ERS) and/or the Police and Fire Retirement System (PFRS) by two percentage points.

The law provides that the City may override and exceed the tax levy limit by adopting a local law with a 60% affirmative vote of the total voting power of the Common Council (five affirmative votes). Such local law must be adopted prior to the adoption of the annual budget affected by the tax levy.

D. Capital Projects Fund Deficits

Individual projects within the Capital Projects Fund reported deficits at year end. These temporary deficits arise when total project expenditures and transfers out exceed total project resources (revenues, grants and aid, long-term debt proceeds and transfers in) and will be eliminated as project resources are obtained.

Note 3: Detailed Notes on all Funds

A. Taxes Receivable

Taxes receivable at June 30, 2014 consisted of the following:

	<u>Current Year</u>	<u>Prior Years</u>	<u>Total</u>
City	\$ 308,417	\$ 224,971	\$ 533,388
School	913,832	311,662	1,225,494
County	655,880	252,761	908,641
Liens and other Charges	-	1,314,103	1,314,103
Total	<u>\$ 1,878,129</u>	<u>\$ 2,103,497</u>	<u>\$ 3,981,626</u>

Taxes receivable are partially offset in the fund financial statements by unearned tax revenues of \$459,711, which represents an estimate of the receivable that will not be collected within the first 60 days of the subsequent year.

Other receivables at June 30, 2014 of the City’s governmental activities consisted of rehabilitation loans, charges for services, utility gross receipts and miscellaneous items. The receivables of the business-type activities consisted of water charges and sewer rents.

B. Due From/To Other Funds

The balances reflected as due from/to other funds at June 30, 2014 are as follows:

<u>Receivable Fund</u>	<u>Payable Fund</u>	<u>Amount</u>
General	Community Development	\$ 15,000
	Public Safety Grant	31,000
	Youth Development	334,652
		<u>\$ 380,652</u>

The outstanding balances between funds result mainly from the time lag between the dates that interfund goods and services are provided or reimbursable expenditures occur and payments between funds are made.

Total depreciation expense of \$1,728,709 was charged to the business-type activities as follows: Water Fund (\$1,022,538) and Sewer Rent Fund (\$706,171).

Construction Commitments

The City has active construction projects as of June 30, 2014 that includes both new construction and renovations to its existing properties. At year end, the City had \$5,334,905 in construction commitments.

Capital Assets - Discretely Presented Component Units

Capital assets activity for the Urban Renewal Agency for the year ended June 30, 2014 was as follows:

	Balance July 1, 2013	Increases	Decreases	Balance June 30, 2014
Capital Assets-Land	<u>\$ 2,743,760</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 2,743,760</u>

Capital assets activity for the Cable TV Commission was as follows:

	Balance July 1, 2013	Increases	Decreases	Balance June 30, 2014
Capital Assets, being depreciated:				
Buildings and facilities	\$ 345,616	\$ -	\$ -	\$ 345,616
Machinery and equipment	320,730	-	-	320,730
Rolling stock	65,828	-	32,513	33,315
Total capital assets being depreciated	<u>732,174</u>	<u>-</u>	<u>32,513</u>	<u>699,661</u>
Less Accumulated Depreciation for:				
Buildings and facilities	283,409	13,825	-	297,234
Machinery and equipment	306,822	4,301	-	311,123
Rolling stock	40,839	3,332	32,513	11,658
Total Accumulated Depreciation	<u>631,070</u>	<u>21,458</u>	<u>32,513</u>	<u>620,015</u>
Cable TV Commission Capital Assets, net	<u>\$ 101,104</u>	<u>\$ (21,458)</u>	<u>\$ -</u>	<u>\$ 79,646</u>

Depreciation expense charged to the Cable TV Commission component unit was \$21,458.

D. Accrued Liabilities

Accrued liabilities for the governmental funds at June 30, 2014 were as follows:

	General Fund	Nonmajor Governmental Funds	Total Governmental Funds
Salary and employee benefits	\$ 3,639,389	\$ 118,153	\$ 3,757,542
Other	-	222,323	222,323
Total Accrued Liabilities	<u>\$ 3,639,389</u>	<u>\$ 340,476</u>	<u>\$ 3,979,865</u>

E. Pension Obligations

The City participates in the New York State and Local Employees' Retirement System (ERS) and the New York State and Local Police and Fire Retirement System (PFRS) (Systems).

These Systems are cost-sharing, multiple-employer, defined benefit retirement plans that provide retirement, disability and death benefits to plan members. Contributions required of employers and employees, and benefits to employees, are governed by the New York State Retirement and Social Security Law.

The Systems issue a publicly available comprehensive annual financial report, which may be obtained by writing to the New York State and Local Retirement System, 110 State Street, Albany, N.Y. 12244 or accessed at <http://www.osc.state.ny.us/retire/>.

Employer and employee contribution rates are actuarially determined and based upon membership plan and tier. Contributions consist of a pension contribution and a group term life insurance (GTLI) component. Contributions are certified by the State Comptroller and expressed as a percentage of member's salary.

Contributions made to the Systems for the years indicated are:

Fiscal Year	ERS				Total	PFRS
	Governmental Activities	Business-type Activities	Cable Television			
2014	\$ 7,229,417	\$ 560,561	\$ 67,046		\$ 7,857,024	\$10,153,234
2013	7,039,817	518,784	70,971		7,629,572	9,735,406
2012	5,653,094	429,073	61,497		6,143,664	7,885,802

These contributions were equal to 100% of the actuarially required contribution for each respective fiscal year.

F. Long-Term Liabilities

Changes in the City's long-term liabilities for the year ended June 30, 2014 were as follows:

	Balance July 1, 2013	New Issues	Maturities and/or Payments	Balance June 30, 2014	Due Within One Year
Governmental Activities:					
Bonds payable	\$ 97,809,152	\$ 32,856,600	\$ (6,528,502)	\$ 124,137,250	\$ 7,260,987
Premium	<u>1,959,739</u>	<u>-</u>	<u>(241,069)</u>	<u>1,718,670</u>	<u>-</u>
	99,768,891	32,856,600	(6,769,571)	125,855,920	7,260,987
Retirement incentives and other pension obligations	1,782,665	-	(1,782,665)	-	-
Tax certiorari	7,716,000	930,140	(2,128,117)	6,518,023	1,800,000
Compensated absences	4,794,329	656,435	(720,231)	4,730,533	946,107
Claims payable	10,603,200	8,691,095	(6,057,495)	13,236,800	2,000,000
Post closure costs	-	1,413,000	(128,000)	1,285,000	-
Other post employment benefit obligations payable	<u>72,256,000</u>	<u>31,463,000</u>	<u>(8,032,000)</u>	<u>95,687,000</u>	<u>-</u>
Governmental Activities Long-term Liabilities	<u>\$ 196,921,085</u>	<u>\$ 76,010,270</u>	<u>\$ (25,618,079)</u>	<u>\$ 247,313,276</u>	<u>\$ 12,007,094</u>
Business-type activities:					
Bonds payable	\$ 12,733,403	\$ 732,200	\$ (927,053)	\$ 12,538,550	\$ 936,274
Premium	<u>321,579</u>	<u>-</u>	<u>(34,519)</u>	<u>287,060</u>	<u>-</u>
	13,054,982	732,200	(961,572)	12,825,610	936,274
Compensated absences	106,137	20,974	(18,835)	108,276	10,827
Other post employment benefit obligations payable	<u>2,079,000</u>	<u>810,000</u>	<u>(94,000)</u>	<u>2,795,000</u>	<u>-</u>
Business-type Activities Long-term Liabilities	<u>\$ 15,240,119</u>	<u>\$ 1,563,174</u>	<u>\$ (1,074,407)</u>	<u>\$ 15,728,886</u>	<u>\$ 947,101</u>
Component Unit - Cable Television:					
Compensated absences	\$ 2,764	\$ 21,930	\$ (2,764)	\$ 21,930	\$ 3,290
Other post employment benefit obligations payable	<u>255,000</u>	<u>97,000</u>	<u>(4,000)</u>	<u>348,000</u>	<u>-</u>
Component Unit Long-term Liabilities	<u>\$ 257,764</u>	<u>\$ 118,930</u>	<u>\$ (6,764)</u>	<u>\$ 369,930</u>	<u>\$ 3,290</u>

Governmental fund liabilities for bonds are liquidated by the Debt Service Fund, which is primarily funded by the General Fund. The liabilities for landfill post-closure costs and tax certiorari are liquidated by the General Fund. Each governmental fund's liability for compensated absences and

other post employment benefit obligations is liquidated by the respective fund.

Bonds Payable

The primary government issues general obligation (GO) bonds to provide funds for major capital projects. GO bonds have been issued for both governmental and business-type activities. GO bonds at June 30, 2014 for governmental activities were comprised of the following individual issues:

Governmental Activities:

<u>Serial Bond Description</u>	<u>Sale Date</u>	<u>Original Borrowing</u>	<u>Interest Rates to Maturity</u>	<u>Final Maturity</u>	<u>Outstanding June 30, 2014</u>
Public Improvements	2006	\$ 3,574,000	4.00-4.25	2021	\$ 1,930,000

					<u>\$ 12,538,550</u>

Bond interest expense of \$3,694,060 was recorded in the government-wide financial statements for

governmental activities. Interest expenditures of \$3,613,368 were recorded in the fund financial statements in the Debt Service Fund. Interest expense of \$432,442 was recorded in the fund financial statements and government-wide financial statements for the business-type activities.

Payments to Maturity

Annual debt service requirements to maturity for general obligation bonds are as follows:

Year Ending June 30,	Bonds					
	Governmental Activities		Business-type Activities		Total	
	Principal	Interest	Principal	Interest	Principal	Interest
2015	\$ 7,260,987	\$ 4,062,346	\$ 936,274	\$ 444,205	\$ 8,197,261	\$ 4,506,551
2016	8,748,220	3,860,869	985,322	417,422	9,733,542	4,278,291

	<u>\$ 124,137,250</u>	<u>\$ 34,495,046</u>	<u>\$ 12,538,550</u>	<u>\$ 3,378,557</u>	<u>\$ 136,675,800</u>	<u>\$ 37,873,603</u>

The above general obligation bonds are direct obligations of the City for which its full faith and credit are pledged and are payable from taxes levied on all taxable real property within the City.

Retirement Incentives and Other Pension Obligations

The ERS and PFRS charges to participating governments increased significantly in 2003. Consequently, the New York State Legislature enacted Chapter 49 of the Laws of 2003 and Chapter 260 of the Laws of 2004 which enabled employers to amortize a portion of their next three years' bills. For fiscal years 2005, 2006 and 2007 the City elected to amortize contributions in excess of 7%, 9.5%, and 10.5%, respectively, of covered payroll to be paid over a ten year period, with interest at 5% per annum. On September 27, 2013 the City, at its option, elected to accelerate its amortization payments to the State and paid the full outstanding balance.

Fiscal Contributions	Amount Amortized	Balance July 1, 2013	New Issues	Payments	Balance June 30, 2014	Due Within One Year
2005	\$ 2,350,000	\$ 565,883	\$ -	\$ 565,883	\$ -	\$ -
2006	1,518,668	535,596	-	535,596	-	-
2007	1,483,365	681,186	-	681,186	-	-
	<u>\$ 5,352,033</u>	<u>\$ 1,782,665</u>	<u>\$ -</u>	<u>\$ 1,782,665</u>	<u>\$ -</u>	<u>\$ -</u>

Tax Certiorari

At June 30, 2014, there were approximately 424 tax certiorari proceedings pending against the City to reduce various assessments upon which taxes had been levied between fiscal year 2000 and fiscal year 2014. Based upon historical experience, the City has estimated it can reasonably be expected to refund approximately \$6.5 million and accordingly, this amount has been recorded as a liability in the government-wide statement of net position at June 30, 2014.

Claims Payable

The Internal Service Fund reflects workers' compensation and general liability claims liabilities. These liabilities are based upon estimates of the ultimate cost of claims (including future claims adjustment expenses) that have been reported, but not settled, and of claims that have been incurred but not reported. The length of time for which such costs must be estimated varies depending on the coverage involved. The process used in computing claims liabilities does not necessarily result in an exact amount due to the fact that actual claims costs depend on such complex factors as inflation, changes in doctrines of legal liability and damage awards.

Claims liabilities are computed periodically using a variety of actuarial and statistical techniques to produce current estimates that reflect recent settlements, claims frequency and other economic and social factors. A provision for inflation in the calculation of estimated future claims costs is implicit in the calculation because reliance is placed both on actual historical data that reflects past inflation and other factors that are considered to be appropriate modifiers of past experience.

An analysis of the activity of unpaid claims liabilities in the Internal Service Fund is as follows:

	June 30			
	2014		2013	
	<u>Workers'</u> <u>Compensation</u>	<u>General</u> <u>Liability</u>	<u>Workers'</u> <u>Compensation</u>	<u>General</u> <u>Liability</u>
Balance - Beginning of Year,	\$ 7,278,400	\$3,324,800	\$ 4,851,200	\$3,091,200
Provision for Claims and Claims Adjustment Expenses	4,888,249	3,802,846	6,687,165	1,930,719
Claims and Claims Adjustment Expense Paid	<u>(3,141,049)</u>	<u>(2,916,446)</u>	<u>(4,259,965)</u>	<u>(1,697,119)</u>
Balance - End of Year	<u>\$ 9,025,600</u>	<u>\$4,211,200</u>	<u>\$ 7,278,400</u>	<u>\$3,324,800</u>
Due Within One Year	<u>\$ 1,360,000</u>	<u>\$ 640,000</u>	<u>\$ 1,311,000</u>	<u>\$ 589,000</u>

Landfill Closure

The Gedney Way Landfill accepted municipal solid waste, construction and demolition debris, and miscellaneous waste from 1948 to 1979. Shortly thereafter, the City placed a soil cap over the landfill and used the site to process leaves, yard waste and brush for recycling, and for the temporary storage of various public works supplies. Soil and groundwater tests conducted from 1986 through 2006 determined that contaminants in the form of ash, motor oil and the solvent trichloroethylene (TCE) were present. On June 8, 2007, the City entered into an Order on Consent with the New York State Department of Environmental Conservation, pursuant to which the City was required to execute a landfill closure, including the installation of a final cover (cap) over certain areas at the landfill.

In addition to the requirements of the Order on Consent, state and federal laws and regulations require the City to perform certain maintenance and monitoring functions at the site for thirty years after closure. The project of placing a final cover on the landfill began in fiscal year ended June 30, 2010 and was completed in fiscal year ended June 30, 2014. The \$ 12.2 million total project cost and financing is reported in the Capital Projects Fund Project-Length Schedule of this report and includes \$128,000 that represents the first year of a thirty year postclosure monitoring process.

The \$1,125,000 reported as landfill postclosure care liability at June 30, 2014, represents the cumulative amount to be paid for postclosure monitoring over the next twenty-nine years. Each year, the City will recognize a portion of this cost beginning July 1, 2014. The postclosure care amounts are based on what it would cost to perform all postclosure care in fiscal year ended June 30, 2014. Actual cost may be higher due to inflation, changes in technology, or changes in regulations.

Other Post-Employment Benefits Obligations

The City reports its other post-employment benefits (OPEB) in accordance with the provisions of GASB Statement No. 45, *Accounting and Financial Reporting by Employers for Postemployment Benefits Other Than Pensions*. OPEB includes, but is not limited to, health care benefits provided to retirees.

The City provides health care benefits for retired employees through a single employer defined benefit plan for which a separate audited report is not issued. The City's municipal code and the various collective bargaining agreements stipulate the employees covered and the employee's required contribution, if any, towards the cost of health care benefits.

The City pays some or all of the cost of post-employment health care benefits for retirees, their spouses and their dependents during the life of the retiree. Surviving spouses of retirees may elect to continue health care benefits at their own expense. Substantially all of the City's employees may become eligible for these benefits if they reach normal retirement age while working for the City and have been credited with at least five years of service to the City.

The expense and liability for OPEB is calculated on an actuarial basis. Actuarial valuations for OPEB plans involve estimates of the value of reported amounts and assumptions about the probability of events far into the future. These amounts are subject to continual revisions as results are compared to past expectations and new estimates are made about the future. Calculations are based on the OPEB benefits provided under the terms of the substantive plan in effect at the time of each valuation and on the pattern of sharing costs between employer and plan members to that point. The actuarial calculations of the OPEB plan reflect a long-term perspective.

The City is required to accrue on the government-wide and proprietary funds financial statements the amounts necessary to finance the plan as actuarially determined, which is equal to the balance not paid by plan members. The cost of OPEB is recognized as expenditures as claims are paid within the governmental funds.

Funding for the plan has been established on a pay-as-you-go basis. The City's annual cost (expense) is calculated based on the annual required contribution (ARC), an amount actuarially determined in accordance with GASB Statement No. 45. Instead of expensing the current year premiums paid, a per capita claims cost is calculated and used to determine a normal cost, an actuarially accrued liability and ultimately the ARC. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities over a period not to exceed 30 years.

Assumptions used in calculating OPEB are as follows:

- The actuarial funding method used is the projected unit credit.
- The valuation date is July 1, 2013.
- The discount rate used is 4.5% per annum for all years.
- The mortality table used is the RP-2000 Combined Table projected to 27 and 19 years.
- The termination table used is the Sarason T-5 Table.

- Retirement rates for non-uniformed retirees with a minimum of five years of required service is 10% at age 55, 3% for ages 56 through 59, 5% for ages 60 through 64 and 100% at age 65.
- Retirement rates for uniformed (police and fire) retirees with a minimum of twenty years of required service is 50% on the 20th year of service, 2% on the 21st year of service at age 54, 10% at age 55, 3% for ages 56 through 59, 5% for ages 60 through 64 and 100% at age 65.
- Health care costs will increase 9.5% for the first year, then decrease 0.5% each year in years two through ten to 9%, 8.5%, 8%, 7.5%, 7%, 6.5%, 6%, 5.5% and 5%, respectively, and then continue at 5% thereafter.
- Wife is assumed to be the same age as husband.
- 70% of males and 50% of females are assumed married.
- Participation rate is 100% of eligible retirees.
- The inflation rate is 3% per annum for all years.
- Market value is used as the asset valuation method.
- The amortization basis is the level dollar basis/open amortization approach over 30 years, with 25 years remaining in the amortization period.

The City currently has no assets set aside for the purpose of paying other post-employment benefits. Current New York State law prohibits municipalities from pre-funding retiree health care benefits obligations in an irrevocable trust fund as required by GASB Statement No. 45.

If and when New York municipalities are permitted to pre-fund these obligations, the City will have the option of doing so in order to reduce and/or eliminate the accumulated liability.

The number of participants and net OPEB obligation as of June 30, 2014 is presented on the following page.

THIS SPACE LEFT BLANK INTENTIONALLY

A schedule of funding progress for OPEB is presented as required supplementary information (RSI) immediately following these notes to the financial statements.

G. Interfund Transfers

Interfund transfers are defined as the flow of assets (such as cash or goods) without equivalent flows of assets in return and without a requirement for repayment. The following have been reported as interfund transfers:

	Transfers Out			Total
	General Fund	Capital Projects Fund	Nonmajor Governmental Funds	
Transfers in:				
General Fund	\$ -	\$ 77,985	\$ -	\$ 77,985
Capital Projects Fund	310,000	-	340,200	650,200
Nonmajor Governmental Funds	<u>10,725,569</u>	<u>337,791</u>	<u>424,943</u>	<u>11,488,303</u>
Total	<u>\$ 11,035,569</u>	<u>\$ 415,776</u>	<u>\$ 765,143</u>	<u>\$ 12,216,488</u>

Transfers are used to 1) move revenues from the fund with collection authorization to the Debt Service Fund as debt service principal and interest payments become due, and 2) move unrestricted General Fund revenues to finance various programs that the government must account for in other funds in accordance with budgetary authorizations, including amounts provided as subsidies or matching funds for various grant programs.

H. Lease Agreements

Commitments under a lease agreement for a Senior Center facility operated by the City provide for minimum annual rental payments as follows:

Fiscal Year Ended June 30,	Senior Center
2015	\$ 264,000
2016	264,000
2017	268,805
2018	273,945
2019	273,945
2020-2024	1,489,288
2025-2027	1,180,515

Rental expenditures charged to operations of the primary government in fiscal year 2014 were \$136,675.

The City, under various agreements, rents real property for public parking. Rental payments are based on parking income generated or negotiated on a year-to-year basis. The City is responsible for ordinary repairs and maintenance of its leased properties. Rental expense charged to operations aggregated \$152,631 in the fiscal year ended June 30, 2014.

I. Encumbrances

As discussed in Note 1(E)(13) Encumbrances, encumbrance accounting is utilized to the extent necessary to assure effective budgetary control and accountability and to facilitate effective cash planning and control. At year end the amount of encumbrances expected to be honored upon performance by the vendor in the next year were as follows:

General Fund	\$1,103,688
Capital Projects Fund	<u>5,334,905</u>
Total	<u>\$6,438,593</u>

J. Net Position

Net position is the difference between (a) assets and deferred outflows of resources and (b) liabilities and deferred inflows of resources. The components of net position are detailed below:

The net investment in capital assets component of net position consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of bonds, mortgages, notes, or other borrowings that are attributable to the acquisition, construction, or improvement of those assets.

The restricted component of net position consists of restricted assets reduced by liabilities and deferred inflows of resources related to those assets. Generally, a liability relates to restricted assets if the asset results from a resource flow that also results in the recognition of a liability or if the liability will be liquidated with the restricted assets reported.

Specific identification of restricted net position presented in the City's government-wide financial statements is as follows:

- Restricted for Capital Projects – Net position that reports the amounts restricted for capital projects, exclusive of unexpended bond proceeds.
- Restricted for Debt Service – Net position that reports the amounts restricted for the payment of debt principal and interest with constraints placed on their use by the New York State Local Finance Law and bond ordinances.
- Restricted for Public Safety – Net position that represents funds restricted for public safety activities under Federal or State laws or by external parties and/or statutes.
- Restricted for Community Services – Net position of the nonmajor governmental funds, exclusive of the Debt Service Fund, Permanent Fund, and Police Activities Fund, that is legally or administratively restricted for specific purposes under Federal or State laws or by external parties and/or statutes.
- Restricted for Nonrecurring Repairs – Net position of the City Center Garage Fund, restricted by ordinance and/or legal agreements to be used for certain repairs to the City Center Garage.
- Restricted for Tax Stabilization – Net position that reports the amounts restricted for contingency and tax stabilization, as adopted by Common Council ordinance on May 10, 2010 pursuant to Section 6-e of the General Municipal Law.
- Restricted for Permanent Fund – Net position that reports the difference between assets and liabilities of the Goldie Zeitlin Memorial Fund, with \$10,000 of this difference representing an endowment amount that must be retained in perpetuity (nonexpendable), and the remaining balance, if any, representing expendable restricted net position that can

only be used for the City's programs related to urban concerns.

The unrestricted component of net position is the net amount of the assets and deferred outflows of resources, less the liabilities and deferred inflows of resources that are not included in the determination of net investment in capital assets or the restricted component of net position.

Note 4: Other Information

A. Self Insurance Fund

The City, including its component units, is self insured for workers' compensation, general and automobile liability, and unemployment benefits.

Insurance policies were purchased for the following exposures with the deductible or self-insured retention indicated in parenthesis: public officials/employment practices liability (\$150,000/\$150,000 self-insured retention), property (\$100,000 deductible), parking garage property/liability (\$1,000 deductible/no deductible), workers' compensation excess liability (\$750,000 self-insured retention), employers liability (\$50,000 self-insured retention), and employee faithful performance/crime (\$25,000 deductible). The City self-insures its general liability and automobile liability and purchases an excess umbrella liability insurance policy (\$1,000,000 self-insured retention). Unemployment claims are reimbursed to New York State on a pay-as-you-go basis.

The Self Insurance Fund (SIF), an internal service fund, is funded by charges to the City's other funds and component units, and is based primarily upon the contributing funds claims experience. Estimates for incurred but not reported (IBNR) losses and trend and development factors for workers' compensation, general liability and auto liability claims, as well as administrative costs, are also formulated into the contributions. Each contributing fund, based upon its proportionate share of SIF fund balance, benefits from the investment income earned by the SIF.

There were no reductions in insurance coverage from the previous fiscal year, nor have settlements exceeded insurance coverage in any of the prior three fiscal years.

B. Litigation

There are claims against the City that have occurred in the normal course of operations for personal injuries, bodily injuries and wrongful death from various alleged causes and litigation is pending with respect to other miscellaneous matters. In the opinion of the management of the City, based on the advice from the Corporation Counsel, the final disposition of these matters will not have a materially adverse effect on the financial condition of the City.

C. Contingencies

The City participates in various Federal grant programs, principal of which are programs of the United States Department of Housing and Urban Development. These programs are subject to program compliance audits pursuant to the Single Audit Act as amended in 1996. The amount of expenditures which may be disallowed by the granting agencies cannot be determined at this time, although the City anticipates such amounts, if any, will be immaterial.

Note to Required Supplementary Information:

The Actuarial Accrued Liability (AAL) and the Unfunded Actuarial Accrued Liability (UAAL) increased \$13.4 million (3.8%) from June 30, 2013 to June 30, 2014. Assumptions used by the actuary in developing the analysis of other postemployment benefits include:

- Life expectancies used in developing the June 30, 2014 actuarial valuations were based on the RP-2000 Combined Table, whereas the life expectancies used in developing the June 30, 2013 actuarial valuations were based on the RP-2007 Combined Table (sex distinct).
- Health care cost rate increases used in developing the June 30, 2014 actuarial valuations were based on a ten-year sliding scale beginning at 9.5% in year one and ending at 5% in years ten and beyond. Health care cost rate increases used in developing the June 30, 2013 actuarial valuations were based on a seven-year sliding scale beginning at 10% in year one and ending at 5% in years six and beyond.

The above changes in assumptions and methodology also had the effect of increasing the Annual Required Contribution (ARC) from \$32.1 million at June 30, 2013 to \$33.4 million at June 30, 2014.

NONMAJOR GOVERNMENTAL FUNDS

Special Revenue Funds

Special revenue funds are used to account for and report the proceeds of specific revenue sources that are restricted or committed to expenditures for specified purposes other than debt service or capital projects.

Library Fund - to account for property taxes and other resources used to support the operation and maintenance of the City library. Section 259(1) of the New York State Education Law requires that monies received from taxes and other public sources for the support of a public library shall be kept as a separate library fund.

RESTORE Grant Fund - to account for a New York State grant that provides assistance to low income senior citizens for housing repairs.

Community Development Block Grant Fund - to account for Federal Community Development Block Grant (CDBG) funds used to provide programs and activities that will benefit low and moderate income families through the prevention or elimination of slums and blight.

Section 8 Housing Assistance Program Fund - to account for Federal grants used to subsidize rental housing for low and moderate income senior citizens and other families residing within the City.

Public Safety Grant Fund - to account for grant monies received from Federal, State and local governments for the enhancement of public safety activities.

Youth Development Fund - to account for grant monies received from Federal, State and local governments and private contributions for youth development programs designed to build skills and competencies among the City's youth.

City Center Garage Fund - to account for parking revenues that are restricted for operating and maintenance costs associated with the City Center Garage.

War Memorial Fund - to account for monies specifically identified by the donors to be used for a memorial to those who have perished in wars.

Community Services Fund - to account for monies specifically identified by the donors to be used to send underprivileged and economically disadvantaged children to day camp.

Recreation Parkland Fund - to account for monies specifically identified by the donors to be used in acquiring and/or developing recreational facilities and open space in the City.

Police Activities Fund - to account for Federal forfeiture proceeds to be used to support community policing activities, training and law enforcement operations.

Mayor's Youth Council Fund - to account for monies specifically identified by the donors to benefit the youth of the City.

Housing Authority Enhancement Fund - to account for monies specifically identified by the donors to be used to enhance public housing occupancy. As of July 1, 2013 the City transferred the Section 8 program to the White Plains Housing Authority.

Parking Fund - to account for fees received in lieu of providing required off-street parking in the central parking area, which are used to increase the quantity/quality of parking spaces available to serve properties in that area.

Debt Service Fund

The Debt Service Fund is used to account for and report financial resources that are restricted, committed or assigned to expenditure for principal and interest and for financial resources that are being accumulated for principal and interest maturing in future years.

Permanent Fund

The Goldie Zeitlin Memorial Permanent Fund is used to account for and report resources that are restricted to the extent that only earnings, and not principal (an endowment of \$10,000), may be used for purposes that support the City's programs (for the benefit of the City and its citizens) related to urban concerns.

WATER FUND

Enterprise funds are used to report an activity for which a fee is charged predominantly to external users of goods or services. The Water Fund is an enterprise fund, charging customers for the supply and use of City-provided water. The Water Fund has three departments: Administration, Supply and Distribution.

The Sewer Fund is also an enterprise fund, but consists of a single department, and all of its activities are presented in the fund financial statements.

FIDUCIARY FUND

Fiduciary funds are used to report assets held in a trustee or agency capacity for others and therefore cannot be used to support the City's own programs. The City's only fiduciary fund is the Agency Fund, which is primarily used to account for employee payroll tax withholdings and various deposits that are payable to other jurisdictions or individuals.

⁽¹⁾ The percentage of overlapping debt applicable is estimated using taxable assessed values. Applicable percentages were estimated by determining the portion of the City's taxable assessed value that is within the overlapping government's boundaries and dividing it by the City's total taxable assessed value.

⁽²⁾ U.S. Census Bureau, American Community Survey 3-Year Estimates

Sources: Outstanding debt and applicable percentages provided by each governmental unit.

Note: Overlapping governments are those that coincide, at least in part, with geographic boundaries of the City. This schedule estimates the portion of the outstanding debt of those overlapping governments that is borne by the property taxpayers of the City of White Plains. This process recognizes that, when considering the City's ability to issue and repay long-term debt, the entire debt burden borne by the property taxpayers should be taken into account.

**Report on Internal Control Over Financial Reporting and on Compliance and Other
Matters Based on an Audit of Financial Statements Performed in Accordance With
Government Auditing Standards**

Independent Auditors' Report

**The Honorable Mayor and Common Council
of the City of White Plains, New York**

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund and the aggregate remaining fund information of the City of White Plains, New York ("City") as of and for the year ended June 30, 2014, and the related notes to the financial statements, which collectively comprise the City's basic financial statements, and have issued our report thereon dated November 19, 2014.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the City's internal control over financial reporting ("internal control") to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control. Accordingly, we do not express an opinion on the effectiveness of the City's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the City's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

We noted certain matters that we reported to the management of the City in a separate letter.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the City's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

O'Connor Davies, LLP

Harrison, New York

November 19, 2014

**Report on Compliance For Each Major Federal Program and Report on
Internal Control Over Compliance Required by
OMB Circular A-133**

Independent Auditors' Report

**The Honorable Mayor and Common Council
of the City of White Plains, New York**

Report on Compliance for Each Major Federal Program

We have audited the City of White Plains, New York's ("City") compliance with the types of compliance requirements described in the *OMB Circular A-133 Compliance Supplement* that could have a direct and material effect on each of the City's major federal programs for the year ended June 30, 2014. The City's major federal programs are identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to its federal programs.

Auditors' Responsibility

Our responsibility is to express an opinion on compliance for each of the City's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about City's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the City's compliance.

Opinion on Each Major Federal Program

In our opinion, the City complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2014.

Report on Internal Control Over Compliance

Management of the City is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the City's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the City's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of OMB Circular A-133. Accordingly, this report is not suitable for any other purpose.

O'Connor Davies, LLP

Harrison, New York

**CITY OF WHITE PLAINS, NEW YORK
NOTES TO SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS
YEAR ENDED JUNE 30, 2014**

Note 1 - Basis of Presentation

The accompanying schedule of expenditures of federal awards (the "Schedule") includes the federal grant activity of the City of White Plains, New York ("City") under programs of the federal government for the year ended June 30, 2014. Federal awards received directly from the Federal agencies as well as Federal awards passed through other government agencies are included in the Schedule. The information in this Schedule is presented in accordance with the requirements of the Office of Management and Budget ("OMB") Circular A-133, *Audits of States, Local Governments and Non-Profit Organizations*. Because the Schedule presents only a selected portion of the operations of the City, it is not intended to and does not present the financial position, changes in net position or cash flows of the City.

Note 2 - Summary of Significant Accounting Policies

Expenditures reported on the Schedule are reported on the modified accrual basis of accounting. Such expenditures are recognized following the cost principles contained in OMB Circular A-87, *Cost Principles for State, Local and Indian Tribal Governments*, which establishes principles and standards for determining costs for Federal awards carried out through grants, cost reimbursement contracts, and other agreements with State and local governments.

**CITY OF WHITE PLAINS, NEW YORK
SUMMARY SCHEDULE OF PRIOR AUDIT FINDINGS
YEAR ENDED JUNE 30, 2014**

None

**CITY OF WHITE PLAINS, NEW YORK
