INDEPENDENT AUDITORS' REPORT

To the Board of Directors
Wayne County Industrial Development Agency
Lyons, New York

Report on the Financial Statements

We have audited the accompanying financial statements of Wayne County Industrial Development Agency as of and for the year ended December 31, 2014, and the related notes to the financial statements, which collectively comprise the Agency's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Wayne County Industrial Development Agency as of December 31, 2014, and the changes in its financial position and cash flows for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 3 through 7 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming an opinion on the financial statements that collectively comprise the Agency's basic financial statements. The supplemental schedules of Revolving Loan Funds on pages 18 to 19 and the schedule of Project Information on pages 20 to 21 are presented for purpose of additional analysis and are not a required part of the basic financial statements.

The supplemental schedules of Revolving Loan Funds and the schedule of Project Information are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supplemental schedules of Revolving Loan Funds and the schedule of Project Information are fairly stated in all material respects, in relation to the basic financial statements taken as a whole.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated March 27, 2015, on our consideration of Wayne County Industrial Development Agency's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Wayne County Industrial Development Agency's internal control over financial reporting and compliance.

WAYNE COUNTY INDUSTRIAL DEVELOPMENT AGENCY
Management's Discussion and Analysis
For the Year Ended December 31, 2014

As management of the Wayne County Industrial Development Agency (the "Agency") we offer readers of the Agency's financial statements this narrative overview and analysis of the financial activities of the Agency for the year ended December 31, 2014. This narrative should be read in conjunction with the Agency's audited financial statements.

Financial Highlights

- The assets of the Agency exceed its liabilities (net position) at December 31, 2014 by \$4,498,138. Of this amount, \$652,979 is *unrestricted net position*, meaning that these amounts are available for use in furthering the Agency's mission.
- The Agency's liquidity remains strong with \$734,831 in unrestricted cash after a \$282,922 increase in that balance due to cash received from operations.
- A combination of one new loan and regularly scheduled repayments resulted in a decrease of \$2,097 or .11% in loans receivable, net of the allowance.

Overview of the Financial Statements

This discussion and analysis are intended to serve as an introduction to the Agency's basic financial statements. This report includes the independent auditors' report, financial statements, notes to financial statements, and other supplemental information that will enhance the reader's understanding of the financial condition of the Agency.

Required Financial Statements - The financial statements are prepared using the accrual basis of accounting. The financial statements include:

- **Statement of Net Position** - Presents all assets, liabilities and net position of the Agency at December 31, 2014. The statement provides information about the amounts and investments in resources (assets) and the obligations to creditors (liabilities).
- **Statement of Activities** - Presents the financial activity for the year ended December 31, 2014 and displays how this activity changed the Agency's net position. The statement provides information on the Agency's operations and can be used to determine if the Agency has recovered all of its costs through grants, user fees and other charges.
- **Statement of Cash Flows** - Presents the cash provided and used in operations, investments and financing activities during 2014 and how it affects the cash balance at December 31, 2014.
- **Notes to Financial Statements** - Provide information regarding the Agency and explain in more detail information included in the financial statements.

Financial Analysis

The Agency provides financial incentives and technical assistance to businesses moving to or expanding in Wayne County where job and capital creation will help improve the economic climate of the County. The Agency's net position may serve over time as a useful indicator of its financial position. In the case of the Agency, assets exceeded liabilities by \$4,498,139 and \$4,346,394 at December 31, 2014 and 2013, respectively.

Significant changes in the statement of net position from 2013 to 2014 include:

- Cash increased due to the retention of operating profits and contract advances received.
- At the Agency's request, its lines of credit were cancelled during the year.
- Amounts due to other governments represent the balance of planning services funding received, but not spent by year end.
- The Agency's largest asset is its loan portfolio. Management assesses the quality of the loans on an ongoing basis. As a result, provisions are made for impaired loans as needed. At December 31, 2014 and 2013, based on management's evaluation, the loan loss reserve was adequate to cover projected loan losses.

Significant changes in the statement of revenues and expenses from 2013 to 2014 include:

- The County of Wayne has engaged the Agency to foster and encourage the location and/or expansion of manufacturing and industrial companies in the County. For this activity the County appropriated \$173,400 to the Agency for contractual services in 2014 and \$257,400 in 2013. The County has also appropriated funding to the Agency for business retention and attraction projects in the amount of \$202,802 for 2014 and \$147,950 for 2013, an increase of \$54,852 or 37.1%. In 2014 the contract with the County for services was amended to include an appropriation of \$141,780 for planning services provided by County employees.
- Overall, revenues increased primarily due to the increase in the Agency Fees charged for projects of \$206,813 and the addition of planning services income of \$141,780.

WAYNE COUNTY INDUSTRIAL DEVELOPMENT AGENCY
Management's Discussion and Analysis
For the Year Ended December 31, 2014

- Personnel costs decreased due to the reduction in staff now employed by the County and funded through the County planning services appropriation.
- Program expenses in 2014 increased due to additional funding for infrastructure and capacity building during the year.
- Contractual expenses decreased reflecting a reduced level of other financial assistance provided to companies.
- Loan loss expense decreased based on management's continuing analysis of the quality of the loan portfolios in light of changing economic conditions.
- Other expenses decreased primarily due to a decrease in funding provided to a project completed in the previous year.

Another important factor in the consideration of fiscal condition is the Agency's cash position and statement of cash flows. A condensed version of the Agency's statements of cash flows - operating fund follows:

Table 3
Condensed Statements of Cash Flows - Operating Fund
(In thousands of dollars)

	<u>2014</u>	<u>2013</u>	<u>2012</u>

Cash and Cash Equivalents - Ending	<u>\$ 657.4</u>	<u>\$ 374.6</u>	<u>\$ 509.9</u>

Significant changes in the statement of cash flows include:

- Receipts from providing services increased due to the increase in agency fees collected.
- Payments to suppliers decreased as a result of the decrease in the loan to grant program.
- Payments to employees decreased reflecting the elimination of one position.
- Other operating revenue increased primarily to the new County planning services appropriation.
- Change in certificates of deposits is due to more investment or redemption of certificates of deposit from year to year.

Management's Discussion and Analysis
For the Year Ended December 31, 2014

Capital Assets

The Agency's major capital asset is approximately forty-two acres of land that was purchased in 2008 for \$400,238 in order to expand the Agency's Industrial Sustainability Park.

Long-Term Debt

The Agency has no direct long-term debt but has entered into conduit financing agreements with one company with a total of \$5,060,000 in bonds outstanding at the end of 2014. These transactions are not recorded on the Agency's financial statements but are disclosed in the notes to the financial statements.

Economic and Other Factors

The Corporation was formed to promote Wayne County using appropriate resources to help create and retain jobs by attracting new businesses and through expansion of existing businesses. The national economic downturn that started in 2008 has continued to lessen and the outlook is for modest economic expansion. While the business and economic climate in the County have been relatively steady over the past two years modest growth may now be expected.

The Agency, together with many other IDAs, is opposed to the Governor's current proposal to require State approval of sales tax exemptions on projects prior to local approval. Enactment of such a requirement would remove local decision making over projects, slow down approvals and make NYS even harder to do business in. This could significantly impact the ability of the Agency to provide benefits and thus potentially reduce the number of transactions.

Contacting the Agency

This financial report is designed to provide a general overview of the Agency's finances for interested individuals. WAYNE COUNTY INDUSTRIAL DEVELOPMENT AGENCY
Notes to Financial Statements

Note 1. Summary of Significant Accounting Policies and Nature of Organization

Nature of Organization - Wayne County Industrial Development Agency (WCIDA) of Lyons, New York is a nonprofit public benefit corporation which was established May 22, 1969, under the mandate of Article 18-A, "New York State Industrial Development Agency Act" of New York State general municipal law. The purpose of WCIDA is to advance the job opportunities, health, general propensity and economic welfare of the people of Wayne County, New York (the County) and improve their recreation opportunities and standard of living. WCIDA is considered a related organization of the County of Wayne, New York.

WCIDA meets this purpose by providing conduit financing through the issuance of tax exempt or taxable obligations, financing projects through the use of revolving loans that are normally secured by a mortgage or lien on the property, and by use of payments in lieu of taxes (PILOT) programs which allow for the full or partial exemption from real property, sales and mortgage taxes.

Basis of Accounting - The Agency complies with the provisions of GASB Statement No. 62, *Codification of Accounting and Financial Reporting Guidance Contained in Pre-November 30, 1989 FASB and AICPA Pronouncements*. This statement codifies all sources of accounting principles generally accepted in the United States of America into the GASB's authoritative literature.

The accounts of the Agency are maintained on the accrual basis of accounting. Proprietary funds are used to account for activities that are similar to those often found in the private sector. The measurement focus is on the determination of operating income, financial position, changes in net position and cash flows. Operating revenues include charges for services. Operating expenses include costs of services as well as, materials, contracts, personnel, and depreciation.

Future Changes in Accounting Standards

The GASB has issued Statement No. 68, *Accounting and Financial Reporting for Pensions*". Effective for periods beginning after June 15, 2014.

The GASB has issued Statement No. 71, *Pension Transition for Contributions Made Subsequent to the Measurement Date*". The provisions of this Statement are required to be applied simultaneously with the provisions of Statement No. 68.

The Agency will evaluate the impact each of these pronouncements may have on its financial statements and will implement them as applicable and when material.

Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Basis of Presentation - The Agency complies with the provisions of GASB Statement No. 63, *Financial Reporting of Deferred Outflows of Resources, Deferred Inflows of Resources, and Net Position*, and Statement No. 65, *Items Previously Reported as Assets and Liabilities*. These statements provide guidance on presenting deferred outflows, deferred inflows and net position. Net position represents assets and deferred outflows of resources less liabilities and deferred inflows of resources. GASB requires the classification of net position into three classifications defined as follows:

WAYNE COUNTY INDUSTRIAL DEVELOPMENT AGENCY
Notes to Financial Statements

Net investment in capital assets - This component of net position consists of net capital assets reduced by outstanding balances of any related debt obligations and deferred inflows of resources attributable to the acquisition, construction, or improvement of those assets and increased by balances of deferred outflows of resources related to those assets.

Restricted net position - This component of net position is considered restricted if its use is constrained to a particular purpose. Restrictions are imposed by federal or state laws or external organizations. Restricted net position is reduced by liabilities and deferred inflows of resources related to the restricted assets. At December 31, 2014 and 2013, the Agency had \$3,437,884 and \$3,429,755 in restricted net position, respectively.

Unrestricted net position - This component of net position consists of all other net position that does not meet the definition of the above two components and is available for general use by the Agency.

Cash and Cash Equivalents - For the purposes of the statement of financial position and statement of cash flows, cash and cash equivalents include deposits, certificates of deposit and all highly liquid debt instruments with original maturities of three months or less.

Investment Policy - WCIDA has a formal investment policy approved by the Board of Directors that defines permitted investments and establishes collateralization requirements for all investments. See Note 2 for further information regarding the Agency's investment policy.

Restricted Cash - This account is used to record cash transactions and to show cash balances restricted for use as part of the WCIDA revolving loan funds.

Restricted Certificate of Deposit - WCIDA has elected not to participate in the New York State Unemployment Insurance program and has established a restricted certificate of deposit for the purpose of funding unemployment claims, if any.

Property and Equipment - Property and equipment is stated at the lower of cost or fair market value at the date of donation or the date of purchase, less accumulated depreciation. Routine maintenance and repairs are charged to operations as they are incurred. Expenditures in excess of \$1,000 which extend the useful life of an asset are capitalized. When assets are retired or otherwise disposed of, the cost and related accumulated depreciation are eliminated and the resulting gain or loss, if any, is included in operations. Depreciation is computed using the straight-line method over the following estimated useful lives.

Equipment

5 - 7 Years

Depreciation expense amounted to \$2,037 for the year ended December 31, 2014.

Allowance for Loan Losses - The allowance for loan losses consists of the provision for loan losses charged to operations based upon management's evaluation of the loan portfolio considering such factors as historical loan experience, review of specific loans, current economic conditions and such other factors as management considers appropriate to estimate loan losses. Loan losses and the recovery of loans previously charged off are charged or credited to the allowance as incurred or realized, respectively. The allowance for loan losses is maintained at a level believed by management to be adequate to provide for the inherent risk of loss in the current loan portfolio. While management uses available information to recognize losses on loans, future additions to the allowance may be necessary based on changes in economic conditions.

WAYNE COUNTY INDUSTRIAL DEVELOPMENT AGENCY
Notes to Financial Statements

Conduit Financing - One of the activities of WCIDA is to provide low-cost financing, through the issuance of tax exempt or taxable obligations, for commercial enterprises. In the normal arrangement WCIDA retains title to the property, equipment, or improvement and enters into a lease or mortgage agreement with the benefited enterprise. Lease or mortgage payments are structured to coincide with debt service payments. Proceeds of obligations as well as debt service payments are administered by the benefited enterprise through a trustee bank. The obligations are not obligations of WCIDA; the primary function of WCIDA is to arrange financing between borrowing companies and the bond note holders. Consequently in these conduit financing arrangements WCIDA does not record bond proceeds, the assets acquired, liabilities incurred or debt service payments in the financial statements.

Due to Other Government - Due to other government consisted of amounts due to Wayne County for planning services.

Contract Advances - Contract advances are stated at the amount specified in the contract agreements.

Grants Payable - Grants payable are stated at the amount specified in the grant agreements.

Note 2. Deposit and Investments

The Agency has a formal investment policy which is in compliance with the laws of the State of New York, Chapter 838, Title 7, Section 2925. The Agency is permitted to invest funds in the following types of investments: special time deposit accounts, certificates of deposit, obligations of the United States of America, obligations guaranteed by agencies of the United States of America where payment of principal and interest are guaranteed by the United States of America and obligations of the State of New York. All deposits of the Agency are required to be collateralized. The Agency may contract for the purchase of investments through the following: directly, including through a repurchase agreement, from an authorized trading partner, by participation in a cooperative investment program with another authorized governmental entity or by utilizing an ongoing investment program with an authorized trading partner pursuant to a contract authorized by the governing board. It is the policy of the Agency to diversify its deposits and investments by financial institution, by investment instrument and by maturity scheduling. The Agency maintains a listing of financial institutions and dealers approved for investment purposes. The Agency also establishes appropriate limits to the amount of investments which can be made with each financial institution or dealer. The Agency maintains proper books and records supporting all investment and deposit accounts held by the Agency.

As of December 31, 2014, WCIDA had certificates of deposit held at banks as follows:

Unrestricted

A six month certificate of deposit at Savannah Bank with interest at .25% maturing on April 20, 2015.	\$ <u>77,415</u>
---	------------------

Restricted

A twelve month certificate of deposit at Lyons National Bank with interest at .75% maturing on February 19, 2015. Use of funds is restricted to unemployment insurance claims.	\$ <u>28,486</u>
--	------------------

The certificates of deposit are fully collateralized as of December 31, 2014.

The Agency's investment policies are governed by state law. Collateral is required for demand deposits, certificates of deposit, and repurchase agreements not covered by federal deposit insurance. Obligations which may be pledged as collateral are obligations of the United States and its agencies and obligations of the State and its municipalities and school districts.

WAYNE COUNTY INDUSTRIAL DEVELOPMENT AGENCY
Notes to Financial Statements

The amounts on deposit in banking institutions and the related collateral as of December 31, 2014 excluding certificates of deposit are as follows:

	<u>Carrying Amount</u>	<u>Bank Balance</u>
Demand and savings deposits	\$ <u>2,127,212</u>	\$ <u>2,131,418</u>
Covered by FDIC insurance		\$ 692,795
Pledged collateral		<u>1,438,623</u>
Total deposits		\$ <u>2,131,418</u>

Note 3. Related Party Transactions

Contractual Services - The County has engaged WCIDA to foster and encourage the location and/or expansion of industrial or manufacturing plants in the County. The 2014 Wayne County budget appropriated \$315,180 for WCIDA for contractual services, which was paid through quarterly installments. The County also has appropriated funding to WCIDA for business retention and attraction projects in the amount of \$202,802 during the year ended December 31, 2014.

At December 31, 2014, no outstanding amounts were owed by the County.

Agency Fees - Agency fees, resulting from the establishment of PILOT agreements, amounted to \$237,327 for the year ended December 31, 2014.

Related Entities - The Agency is related through common management and Board of Directors membership with Wayne Economic Development Corporation (WEDC) and Wayne Industrial Sustainability Development Corporation (WISDC) and through common management with Wayne County Civic Facility Development Corporation (WCFDC), which also promote economic development in the County. In 2014, the Agency contributed \$80,000 to the WEDC, which is shown as project expense in the accompanying statement of revenues, expenses, and change in net position.

See Note 9 for additional related party transaction.

Note 4. Revolving Loan Funds

A common function of WCIDA is to administer revolving loan funds for the purpose of fostering economic development. The source of funds to finance the loan payment may be from state, federal, or private grants or from funds of WCIDA itself. Whether the loan funds are restricted by a grant agreement or funded from WCIDA monies, they are established directly from net position and reported as a reservation of net position. Thus, grants received from outside sources which will be used to make loans from a revolving fund are recorded as a non-operating revenue.

Loans to commercial enterprises and principal repayments are not recorded through revenue and expenses. Any interest income is restricted to making future loans and is credited to revenues and closed to the restricted net position.

Total revolving loans receivable from various commercial enterprises as of December 31, 2014 were \$2,058,491. The loans have an associated allowance for loan losses of \$97,811 resulting in net loans receivable of \$1,960,680.

At December 31, 2014, total interest receivable due on revolving loans amounted to \$6,408. In addition, at December 31, 2014, total loans included in the revolving loan funds on a non-accrual status amounted to approximately \$60,706. Interest on these loans is recorded when paid to WCIDA. At December 31, 2014 interest not received or recorded amounted to \$3,527.

WAYNE COUNTY INDUSTRIAL DEVELOPMENT AGENCY
Notes to Financial Statements

Note 5. Property and Equipment

Property and equipment consists of the following at December 31, 2014:

Operating Fund	
Land	\$ 400,238
Equipment	<u>19,542</u>
Sub-total	419,780
Less - accumulated depreciation	<u>(12,505)</u>
Property and equipment - net	<u>\$ 407,275</u>

Note 6. Line of Credit

WCIDA maintained a \$1,000,000 line of credit with Lyons National Bank with interest at the prime rate minus 1%, or 2.25% at December 31, 2014. In August 2014, this was transferred to WEDC.

WCIDA also had a second line of credit with Lyons National Bank in the amount of \$500,000 that had interest at the prime rate minus 1%. This line was cancelled in August 2014.

Note 7. Industrial Revenue Bonds

WCIDA has entered into the following conduit financing arrangements where the primary function of WCIDA was to arrange financing through the issuance of Industrial Revenue Bonds between the companies identified below and the bond holders. As conduit financing arrangements, the assets and liabilities resulting from the transactions are not recorded in these financial statements.

Although not part of the accounting system, New York State statute requires disclosure of these transactions as follows:

<u>Company</u>	<u>Date of Issuance</u>	<u>Date of Maturity</u>	<u>Outstanding End of Year</u>
Seneca Foods Corporation	1992	2017	\$ <u>5,060,000</u>

Note 8. Payments in Lieu of Taxes (PILOT's)

A significant inducement in WCIDA projects is exemption from real property, sales, and mortgage taxes. By law, all property titled to WCIDA is exempt from these taxes. In practice, however, payments in lieu of taxes (PILOT's) are often negotiated with the private developer. PILOT's may represent full or partial remuneration to one or more of the real property tax jurisdictions involved.

WCIDA is responsible for tracking all PILOT payments whether made by WCIDA in connection with property it owns or made directly to the taxing authorities by the organizations participating in the program. A total of 50 organizations participated in the PILOT's program and \$1,863,906 in payments were administered by WCIDA for the year ended December 31, 2014. The PILOT payments are not recorded on the financial statements.

WAYNE COUNTY INDUSTRIAL DEVELOPMENT AGENCY
Notes to Financial Statements

Note 9. In-Kind Contributions

WCIDA records various types of in-kind contributions, including contributed tangible assets and services. The contributions of tangible assets are recognized at the date of the contribution and are recorded at fair market value. Contributed services are recognized if the services received either create or enhance long-lived assets, or require specialized skills that are provided by individuals possessing those skills that typically would need to be purchased if not provided by donation. The amounts reflected in the accompanying financial statements as in-kind contributions are recorded by the gross method with offsetting amounts included in expenses or property and equipment.

WCIDA offices are housed in a building owned by the County. The County charges rents to WCIDA for the use of the facility. Based upon office square footage of 859 square feet and a rate of \$8.30 per square foot plus utilities, total rents of \$7,130 have been recorded as rent expense.

Note 10. Employee Benefit Plan

Plan Description - WCIDA participates in the New York State and Local Employee' Retirement System (ERS) a cost-sharing multiple-employer retirement system. The ERS provides retirement benefits as well as death and disability benefits. Obligations of employers and employees to contribute and benefits to employees are governed by the New York State Retirement and Social Security Law (NYSRSSL). As set forth in NYSRSSL, the Comptroller of the State of New York serves as sole trustee and administrative head of the ERS. The Comptroller shall adopt and may amend rules and regulations for the administration and transaction of business of the ERS and for the custody and control of the ERS funds. The ERS issues a publicly available financial report that includes financial statements and required supplementary information. That report may be obtained by writing to the New York State and Local Retirement Systems, Gov. Alfred E. Smith, State Office Building, Albany, NY 12244.

Funding Policy - The ERS Tiers I through IV are non-contributory except for employees with less than 10 years of service who contribute 3% of their salary. Tier V and VI employees contribute 3% of their salary. Under the authority of NYSRSSL, the Comptroller shall certify annually the rate expressed as proportions of payroll of members, which shall be used in computing the contributions required to be made by employers to the pension accumulation fund.

WCIDA is required to contribute at an actuarially determined rate. The required contributions for the current year and two preceding years were:

2014	\$	36,704
2013	\$	51,604
2012	\$	49,831

The ERS plan year ends March 31st. The required contribution noted above for 2014 is for the plan year ending March 31, 2015. The contribution was paid before December 31, 2014, resulting in a prepaid expense of \$9,176 at December 31, 2014.

Note 11. Budget Comparison

The following is a comparison of budgeted expenditures to actual expenditures for the year ended December 31, 2014:

	<u>Budget</u>	<u>Actual</u>	<u>Difference</u>
Program/contractual services/other	\$ 323,930	\$ 378,086	\$ (54,156)
Salaries	136,000	135,732	268
Employee benefits	67,500	72,903	(5,403)
Depreciation	300	2,037	(1,737)
Occupancy	<u>10,000</u>	<u>7,130</u>	<u>2,870</u>
Total	<u>\$ 537,730</u>	<u>\$ 595,888</u>	<u>\$ (58,158)</u>

The major variance to the budget during 2014 was in the area of program and contractual expenses in the amount of \$54,156. This was due primarily to more than anticipated funding of infrastructure and capacity building projects during the year.

INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

To the Board of Directors
Wayne County Industrial Development Agency
Lyons, New York

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of Wayne County Industrial Development Agency as of and for the year ended December 31, 2014, and the related notes to the financial statements, which collectively comprise Wayne County Industrial Development Agency's basic financial statements, and have issued our report thereon dated March 27, 2015.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered Wayne County Industrial Development Agency's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Wayne County Industrial Development Agency's internal control. Accordingly, we do not express an opinion on the effectiveness of Wayne County Industrial Development Agency's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Wayne County Industrial Development Agency's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Agency's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Agency's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
