Dear Mr. Ducasses:

Please be advised that the Water Authority of Southeastern had no revenue or expenditures for fiscal 2015. Accordingly, the Authority is requesting a waiver from the requirements for an annual audit report as we began and ended fiscal 2015 with the same fund balances.

At our February 2016 meeting, the Board of Directors of the Authority voted to retain the existing water system for its service area and accordingly will be ceasing its existence. The authority will be filing its final PARIS reportings for FY 2016 in the near future and will at that time have a final audit performed by an outside accountant.

Thank you for your assistance over these past several years.

Sincerely,

John Reinhardt
Secretary
