Authorities Budget Office Publishes Public Authority Data

The Authorities Budget Office (ABO) - in collaboration with Open Data NY- has made information reported by public authorities available for the general public to download, sort, search, and analyze. This unprecedented release of public authority information consists of over 20 sets of data that include a wide collection of information reported by public authorities to the ABO such as financial data, salaries, procurement reports, debt schedules, real property transactions and various economic development projects. It is ABO's belief that making this information widely available to the public contributes to our mission of making public authorities more transparent and accountable.

The data can be accessed on the ABO homepage (www.abo.ny.gov).
